This proceedings volume contains the contributions of the speakers who attended the NATO Advanced Research Workshop on Perspectives Science and Technologies for Novel Silicon on Insulator Devices held at the Sanatorium Pushcha Olema Kyiv th Ukraine from It to 15 October 1998 This meeting was the second NATO Silicon on Insulator SOI Workshop to be held in st the Ukraine where the first meeting Gurzuf Crimea 1 to 4th November 1994 focussed upon the physical and technical problems to be addressed in order to exploit the advantages of incorporating SOI materials in device and sensor technologies On this occasion emphasis was placed upon firstly promoting the use of SOI substrates for a range of novel device and circuit applications and secondly addressing the economic issues of incorporating SOI processing technologies and device technologies within the framework of the resources available within the laboratories and factories of the Newly Independent States NIS The primary goal of both workshops has been the breaking of the barriers that inhibit closer collaboration between scientists and engineers in the NATO countries and the NIS Indeed it was a pleasure for attendees at the first meeting to renew acquaintances and for the first time attendees to make new contacts and enjoy the warm hospitality offered by our hosts in Kyiv An outcome was the forging of new links and concrete proposals for future collaborations **OM85,**
