## **Speech Of The Birds:**

**How Mockingbirds Are** Donald Bahr,2011-06-24 The power of mockingbirds and the enduring significance of indigenous ceremonial speeches are deftly revealed in this brilliant analysis of ritual orations created and delivered by the O odham people also known as the Pima Papago Making their homes along the Akimel rivers and across the arid expanses and mountains of the desert of southern Arizona and northern Sonora the O odham people traditionally lived in small villages with scattered brush walled round houses Public ceremonies involved many villages and centered around small brush walled rainhouses One hundred years ago two very different versions of a speech delivered during rain ceremonies were heard at these rainhouses The Pimas Akimel O odham told of nearly silent and stately events the calming of a heaving earth the building of a house on the stilled land the breathing out of smoke and the coming of gentle rain In marked contrast the Papagos Tohono O odham told of how raucous drunken people caused clouds to rise and explode with rain like vomiting drunks Both stories featured mockingbirds and both involved the coming of rain Today the gentler Pima version is extinct while the wilder Papago story endures Why Drawing upon a rich reservoir of O odham oral traditions and ceremonial performances a meticulous deciphering of particular texts and an insightful assessment of the impact of Christianity upon the O odham people Donald Bahr offers a brilliant analysis of why some indigenous stories cease to be relevant and told The clues lie in the very different trajectories of the Pima and Papago communities in the late nineteenth and twentieth centuries trajectories resulting in part with how Christianity fared in the respective communities **Sufism and the Scriptures**

Fitzroy Morrissey,2020-12-10 The Sufi thinker Abd al Karim al Jili d 1408 is best known for his treatment of the idea of the Perfect Human yet his masterpiece al Insan al kamil The Perfect Human is in fact a wide ranging compendium of Sufi metaphysical thought in the Ibn Arabian tradition One of the major topics treated in that work is sacred history the story of God s revelation of the truth to humanity through His prophets and scriptures Fitzroy Morrissey provides here the first in depth study of this important section of al Jili s major work and the key ideas contained within it Through a translation and analysis of the key passages on the Qur an Torah Psalms and Gospel it shows how al Jili s view of sacred history is conditioned by his Ibn Arabian Sufi metaphysics whereby the phenomenal world is viewed as a manifestation of God and the prophets and scriptures as special places where the divine attributes appear more completely It also looks at how this idea influences al Jili s understanding of the hierarchy of prophets scriptures and religions The book argues that contrary to common assumptions al Jili s Sufi metaphysical view of sacred history is in keeping with the common medieval Muslim view of sacred history whereby the Qur an is viewed as the best of scriptures Muhammad as the best of prophets and Islam as the best religion The book therefore not only gives an insight into a key text within medieval Sufi thought but also has ramifications for our understanding of medieval Sufi views on the relationship between Islam and other religions

**Philosophy, Poetry, and Power in Aristophanes's Birds** Daniel Holmes,2018-11-23 Aristophanes was clearly anxious

about the role of the sophists and the new education in Athens After the perceived failure of *Clouds* in 423 and its subsequent unperformed revision Aristophanes this book argues returned in 414 with *Birds* a continuation and deepening of his critique found in *Clouds* Peisetaerus or persuader of his comrades the protagonist of *Birds* though an old man is clearly a student of Socrates phrontisterion Unlike Socrates however he is political and ambitious and he understands the whole of human nature both rational and irrational Peisetaerus employs the various deconstructive techniques of Socrates and his allies which is summed up on the comic sage in the image of father beating to overturn not just human society but with the help of his new allies the divine and musical birds the cosmos After his new gods and bird city Cloudcuckooland are actually established however the hero re introduces the old ways justice moderation and obedience to law but now under his personal authority and thereby becomes the highest of the gods Thus the author postulates in 414 Aristophanes has come to acknowledge the potency of the apparent civic minded turn or element of the sophists while aware of the self aggrandizing nature of their ambition Peisetaerus unlike Socrates is successful he is establishing a just polis and cosmos and therefore must be victorious But the consequence or cost of this success is illustrated through the Bird Chorus After the polis is founded the birds never again sing of their musical reciprocity with the Muses the source of melodies for men The birds are now political and the policemen of human beings The sophist run cosmos has lost its music The new Zeus is an ugly bird mutant The gods and all nomoi have lost their beauty honor and reverential nature *Birds* in its finale hilariously but boldly illuminates the inherent tension between philosophy reason and poetry divinely inspired tradition
