Compelling Stories for English Language

Learners Janice Bland, 2022-10-06 An International Research Society for Children's Literature IRSCL Honour Book for 2023

This book is a comprehensive and thorough introduction to children's and young adult literature in English language education. Reading is promoted as central to language education in order to experience perspectives from around the world and the book demonstrates the many opportunities for teaching with compelling story encouraging an active and engaged community of second language readers through challenging picturebooks, motivating graphic novels, dynamic plays, enchanting verse novels and compelling young adult fiction. Using many examples of literary texts that are well suited to the primary or secondary classroom, the book focuses on the advantages of deep reading and the vital importance of in-depth learning. In-depth learning is an approach that involves the students as motivated participants working collaboratively and with empathy while preparing for and confronting the challenges of the 21st century. Illustrating the approach with a Deep Reading Framework based in research and theory, Janice Bland guides the reader to discover and learn how to make use of literary texts in a way that challenges students to become involved in interculturality, creativity and critical literacy. Throughout the book, the emphasis is on an approach that puts the reader and language learner in the centre, not a study of literature but a study of how readers learn through compelling story.

Creative Teachers Dennis Sale, 2020-03-05 This book offers teaching training professionals an evidence-based pedagogic guide to teaching effectively, efficiently and creatively, also known as Creative Teaching Competence. Firstly, it summarizes the extensive research on human psychological functioning relating to learning and how this can be fully utilized in the design and facilitation of quality learning experiences that maximize attainment and engagement opportunities. Secondly, it demonstrates what creativity actually looks like in terms of specific teaching practices, modeling the underpinning processes, syntax of creative learning design. It then establishes Metacognitive Capability as the superordinate twenty-first century competency in that this unique human attribute can significantly enhance the cognitive and motivational strategies essential for facilitating self-directed learning and wellbeing. The book helps teaching training professionals to thoughtfully apply evidence-based knowledge and strategies to today's challenges such as developing self-directed learners, enhancing intrinsic motivation, utilizing technology for learning and teaching, developing curricula for twenty-first century competencies and optimally framing and developing the heightened teacher expertise required today.
