Classroom Nonverbal Communication Sean Neill,2017-09-29 Nonverbal signals are less easily controlled than words and thus potentially offer reliable information to both teachers and children on each other's true intentions But such signals are also more ambiguous than words and this makes them valuable when teachers or children wish to send a message they do not want to be challenged Even so misunderstandings can occur for example between different ethnic groups Originally

published in 1991 Sean Neill explores how children's skill in using and understanding nonverbal signals increases with age. The appropriate nonverbal signals for teachers differ from those used in informal conversation because of the teacher's controlling, instructing, and encouraging role, and this creates problems for new teachers who also find it difficult to interpret the limited feedback from the class. A detailed coverage of teachers' and children's signals leads on to a survey of how teachers acquire nonverbal skills and research on effective training. *Classroom Nonverbal Communication* provides the only comprehensive survey of these areas for staff involved in the initial and in-service training of teachers and in staff development. Classroom social arrangements are permanently reflected in seating layout and room design, which can allow teachers and administrators to influence classroom interaction through advance planning. For these groups, this richly illustrated volume assesses how effective such planning really is. Sean Neill has researched room layout and nonverbal communication in education since 1975 and has published many papers dealing with these issues. He provides a uniquely comprehensive survey of the research evidence on classroom nonverbal communication.

Field Notes on Love Jennifer E. Smith, 2019-03-05 Utterly romantic Jenny Han NYT bestselling author of *To All the Boys I've Loved Before*. The bestselling author of *Windfall* and *The Statistical Probability of Love at First Sight* returns with a meet-cute romance about Hugo and Mae, two teens who are thrown together on a cross-country train trip that will teach them about love, each other, and the futures they can build for themselves. It's the perfect idea for a romantic week together traveling across America by train. But then Hugo's girlfriend dumps him. Her parting gift: the tickets for their long-planned last hurrah before uni trip. Only it's been booked under her name. Nontransferable, no exceptions. Mae is still reeling from being rejected from USC's film school. When she stumbles across Hugo's ad for a replacement Margaret Campbell, her full name, she's certain it's exactly the adventure she needs to shake off her disappointment and jumpstart her next film. A cross-country train trip with a complete stranger might not seem like the best idea. But to Mae and Hugo, both eager to escape their regular lives, it makes perfect sense. What starts as a convenient arrangement soon turns into something more. But when life outside the train catches up to them, can they find a way to keep their feelings for each other from getting derailed? One of the loveliest, most touching romances of 2019, thus far, that gets at the nature of something deeply buried in all of our hearts. Entertainment Weekly. This warm, romantic, never-overly-sentimental story is told with humor and heart. A deeply satisfying read about a life-changing journey full of poignant moments. Kirkus starred review.
