*Between Earth and Empire* John P. Clark,2019-07-01 Between Earth and Empire focuses on the crucial position of humanity at the present moment in Earth history We are now in the midst of the Necrocene an epoch of death and mass extinction Nearing the end of the long history of Empire and domination we are faced with the choice of either continuing the path of social and ecological disintegration or initiating a new era of social and ecological regeneration The book shows that conventional approaches to global crisis on both the right and the left have succumbed to processes of denial and disavowal either rejecting the reality of crisis entirely or substituting ineffectual but comforting gestures and images for deep systemic social transformation It is argued that a large scale social and ecological regeneration must be rooted in communities of liberation and solidarity fostering personal and group transformation so that a culture of awakening and care can emerge Between Earth and Empire explores examples of significant progress in this direction including the Zapatista movement in Chiapas the Democratic Autonomy Movement in Rojava indigenous movements in defense of the commons the solidarity economy movement and efforts to create liberated base communities and affinity groups within anarchism and other radical social movements In the end the book presents a vision of hope for social and ecological regeneration through the rebirth of a libertarian and communitarian social imaginary and the flourishing of a free cooperative community globally

**Transforming Demons** Are Thoresen, 2021-06-04 Having misused women power and the life energy of his followers the Seeker must overcome his demons not figuratively but literally in the astral etheric and physical dimensions of reality But in order to face them he must first cross the threshold to the spiritual world Transforming Demons takes us on an astonishing journey from contemporary Norway to Ancient Atlantis to Ireland and India where we encounter leprechauns dragons evil spirits hallucinogenic drugs and a mysterious golden cross with a red ruby at its heart With hubris arrogance and deceit the Seeker has abused his magical powers in previous existences If he is finally to resolve his knotted karma he must first confront his misdeeds and the demons that were created as a result Then he must learn to transform those demons in order to free them and him from the weight of his past This is a remarkable true memoir that crosses lifetimes thousands of years and manifold dimensions It is an authentic story of transformation and redemption on the path to self knowledge freedom and love *The Truth Seeker*, 1918 [Constantine Versus the Bankers](#) C. Eliopoulos Nicholas C. Eliopoulos, Nicholas C. Eliopoulos, 2010 Constantine Versus the Bankers is the epic of what went wrong and still goes wrong in a seemingly Christian setting In spite of setbacks it examines what is yet to be accomplished toward Peace in this world There is nevertheless a de facto kind of oneness in politics religion education and public ethos albeit as four distinctly separate Estates and not always in harmony This results at times in human failure and more often in pernicious conspiracies at work Constantine still is maligned from contemporary world leaders to historians while Christians still are selectively being killed with evermore imaginative cunning Consider the sources vilifying Christianity they are the same agencies hunting down the Holy Apostles on their Mission with the same combination of Murky Forces and modern internationalist adepts While considered a sacred cow the Bankers of all grades are popularly held on the highest pedestal and glorified as saviors greater than God As matters today stand the only solutions to cultural political social economic and educational impasses come through going deeper into private national and international debt sinking down into the cavernous jaws of the interest bearing Vipers To believe in an irreversibly coming doom is to question whether there is a God or not
