Sisters And Solidarity Women And Unions In Canada:

Union Women Mary Margaret Fonow, 2003 For more than a quarter century steel mills in the United States and Canada have produced more than metal they have produced a new kind of worker and union activist Women of Steel In an era labeled postfeminist and postindustrial women have created spaces in this quintessentially male dominated workforce from which to mobilize for their rights as women and workers In *Union Women* Mary Margaret Fonow captures the stories of the women of the United Steelworkers She focuses on a tenacious group who used their developing power in the union to challenge sex discrimination and to advocate for women's rights and applied their transnational resources to construct a feminist response to globalization and economic restructuring In the process they have transformed the organizations resources and networks of both the labor and women's movements and have in turn transformed themselves into feminists In *Union Women* Fonow uses statistical archival and ethnographic research methods to provide a broad historical account of women in the steel industry Fonow's sweeping approach allows her to examine several key issues in social movement feminist and political theory and to show that insights from these fields shape each other She explores how social movements are gendered how working class women develop a feminist consciousness and how this process is informed by intersecting demands of race class and gender As a comparative cross national study *Union Women* also demonstrates how different political and social cultures affect women's organizing and strategic decisions Finally Fonow emphasizes that economic restructuring and globalization pose immediate challenges for women as laborers and activists and that in order to survive all unions must develop organizing and mobilization strategies informed by feminism and other social movements

Feminisms and Womanisms Althea Prince, Susan Silva-Wayne, 2004 *Feminisms and Womanisms* brings together theory and practical application so that feminist discourse interacts as a partner with the lived experience of women's social action The selections combine classics in feminist thought with work from modern theorists and offer a solid foundation in international feminism The conceptual understanding embedded in the terms feminism and womanism contributes to feminist discourse a carefully differentiated focus on the ideological uses of language to define relationships that have been historically mired in domination The terms also define the way gender often has been used to signify and support domination Given that feminism and womanism are interpretive concepts there is always a sense that knowledge making is in progress for there is nothing static or stagnant about feminism feminist theory and feminist action The formative nature of the feminist movement has of necessity a parallel interpretive theory This reader embraces both the formative nature of the movement and the accompanying interpretive theories It also pays attention to the chronological cultural geopolitical racial and ethnic landscapes and sites where women live carry out social action and theorize issues of equality For both the general and academic reader this book will be edifying while providing exposure to the feminist womanist voices that inform the scholarship

Sisters and Solidarity Julie White, 1993 *Sisters Solidarity* provides a clear and well researched overview of

the position of women in relation to the labour movement across Canada After surveying the development of the labour movement at the turn of the century the author traces the increasing influence of women members in the Canadian labour movement Sisters Solidarity considers not only what unions have negotiated with employers but the position of women inside the union movement itself Based on interviews with unions and labour centrals across the country Julie White examines the representation of women in union executives committees conventions and staff She describes the development of women s committees and examines the responses of unions to demands for change concerning family responsibilities harassment and union education Using new data the author analyzes who are the unorganized where they work and why it is difficult to organize them Three case studies examine the attempts to unionize homeworkers and cleaners and new labour relations legislation in Ontario Sisters Solidarity also considers the position of racial minorities disabled persons and gays and lesbians in the Canadian union movement and the steps unions and labour centrals have taken to meet the needs of these workers

Movement: A Short History Craig Heron,1996 The Canadian Labour Movement is a fascinating story that brings to life the working men and women who built Canada s unions This concise history recounts the story of Canadian labour from the nineteenth century to the present day First published in 1989 it has been updated to include new developments in the world of labour up to 1995 Heron depicts the major events and trends in labour s history and assesses the current state and direction of the labour movement The Canadian Labour Movement is a masterful overview of the subject providing a broad and accessible introduction to Canadian labour Temporary Work Leah F. Vosko,2000-01-01 It explores how and to what

extent temporary work is becoming the norm for a diverse group of workers in the labour market taking gender as the central lens of analysis Critical to Care Pat Armstrong,Hugh Armstrong,Krista Scott-Dixon,2008-01-01 Who counts as a health care worker The question of where we draw the line between health care workers and non health care workers is not merely a matter of academic nicety or a debate without consequences for care It is a central issue for policy development because the definition often results in a division among workers in ways that undermine care Critical to Care uses a wide range of evidence to reveal the contributions that those who provide personal care who cook clean keep records and do laundry make to health services As a result of current reforms these workers are increasingly treated as peripheral even though the research on what determines health demonstrates that their work is essential The authors stress the invisibility and undervaluing of women s work as well as the importance of context in understanding how this work is defined and treated Through a gendered analysis Critical to Care establishes a basis for discussing research policy and other actions in relation to the work of thousands of marginalized women and men every day **Cracked** Joan M. formative moment in Canadian history the 1940s left as a legacy not only the welfare state but also the legal framework that has defined organized labour for five decades **BOOK JACKET** *From Left to Right* Brian T. Thorn, 2016-07-22 In *From Left to Right* Brian Thorn explores what motivated Canadian women to become politically engaged in the 1940s and 50s Although women in these decades are often depicted as being trapped in the suburbs caring for children baking pies and leaving politics to men they joined diverse political parties including the Social Credit Party the Co operative Commonwealth Federation and the Communist Party of Canada Thorn argues controversially that while women on the left and right had different goals their activism continued to be informed by maternalism They used their roles as wives and mothers to influence their parties positions on war and unions to break down barriers between the private and public spheres and to push for a new world order Along the way they laid the foundations for the 1960s feminist movement **International and Comparative Employment Relations** Greg J. Bamber, Russell D Lansbury, Nick Wailes, 2004-03-27 Earlier editions of this text have become the standard reference for a worldwide readership of practitioners in governments companies and unions and students This revised edition analyzes employment relations in the UK USA Canada Australia Italy France Germany Sweden Japan and Korea Social Reproduction Meg Luxton, Kate Bezanson, 2006 Using a feminist political economy approach contributors document the impact of current socio economic policies on states markets households and communities Relying on impressive empirical research they argue that women bear the costs of and responsibility for care giving and show that the theoretical framework provided by feminist analyses of social reproduction not only corrects the gender blindness of most economic theories but suggests an alternative that places care giving at its centre In this illuminating study they challenge feminist scholars to re engage with materialism and political economy to engage with feminism Militant Minority Benjamin Isitt, 2011-05-21 *Militant Minority* tells the compelling story of British Columbia workers who sustained a left tradition during the bleakest days of the Cold War Through their continuing activism on issues from the politics of timber licenses to global questions of war and peace these workers bridged the transition from an Old to a New Left In the late 1950s half of B C s workers belonged to unions but the promise of postwar collective bargaining spawned disillusionment tied to inflation and automation A new working class that was educated white collar and increasingly rebellious shifted the locus of activism from the Communist Party and Co operative Commonwealth Federation to the newly formed New Democratic Party which was elected in 1972 Grounded in archival research and oral history *Militant Minority* provides a valuable case study of one of the most organized and independent working classes in North America during a period of ideological tension and unprecedented material advance Transforming Labour Joan Sangster, 2010-05-22 The increased participation of women in the labour force was one of the most significant changes to Canadian social life during the quarter century after the close of the Second World War *Transforming Labour* offers one of the first critical assessments of women s paid labour in this era a period when more and more women particularly those with

families were going out to work Using case studies from across Canada Joan Sangster explores a range of themes including women s experiences within unions Aboriginal women s changing patterns of work and the challenges faced by immigrant women By charting women s own efforts to ameliorate their work lives as well as factors that re shaped the labour force Sangster challenges the commonplace perception of this era as one of conformity domesticity for women and feminist inactivity Working women s collective grievances fuelled their desire for change culminating in challenges to the status quo in the 1960s when they voiced their discontent calling for a new world of work and better opportunities for themselves and their daughters **Changing Prospects for Trade Unionism** Peter Fairbrother, Gerard Griffin, 2013-10-28 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company
