It provides a comprehensive overview of the fundamentals of LBOs and an organized M/A sale process. It presents new coverage of M/A buy-side analytical tools, which includes both qualitative aspects such as buyer motivations and strategies, along with technical financial and valuation assessment tools. It includes a comprehensive merger consequences analysis, including accretion, dilution, and balance sheet effects. It contains challenging end-of-chapter questions to reinforce concepts covered. A perfect guide for those seeking to learn the fundamentals of valuation, M/A, and corporate finance used in investment banking and professional investing, this *UNIVERSITY EDITION*, which includes an instructor's companion site, is an essential asset.
