Thiselton, 2018-11-15 A biblical historical and theological investigation into the tendency of literary images to either enlighten or mislead and how we can learn to distinguish between the two Part One considers key philosophical and aesthetic evaluations of literary images and symbols The power of pictures is widely appreciated as in the adage a picture is worth a thousand words Sometimes Christian discourse can be smothered by endless prose which demands much inferential reasoning There is however a contrary argument An isolated visual representation can be misleading if it is improperly interpreted For example some mystical visions are interpreted as direct instructions from the Holy Spirit as happened with the Radical Reformers who advocated the Peasants Revolt Hence theories of symbol metaphor and visual representation must be examined Part Two discusses visual representation in the Old Testament the teaching of Jesus pictures and analogies in Paul and the Book of Revelation This shows the range of authentic visual representations In contrast to biblical material we find throughout Christian history abundant examples of misleading imagery which is often passed off as Christian A notorious example is found in the visual representation and metaphors used by Gnostic writers Almost as bad are some visual representations used by the medieval mystics Radical Reformers and extreme charismatics all of which lack valid criteria of interpretation relying instead on subjective conviction Similarly sermons and prayers today can be enriched with pictorial images but some can be misleading and unhelpful for the life of the Church

Publishers' Circular and Booksellers' Record of British and Foreign Literature, 1887 *The Literary World*, 1882 Protestants and Pictures David Morgan, 1999-08-26 In this lavishly illustrated book David Morgan surveys the visual culture that shaped American Protestantism in the nineteenth and twentieth centuries a vast record of images in illustrated bibles Christian almanacs children's literature popular religious books charts broadsides Sunday school cards illuminated devotional items tracts chromos and engravings His purpose is to explain the rise of these images their appearance and subject matter how they were understood by believers the uses to which they were put and what their relation was to technological innovations commerce and the cultural politics of Protestantism His overarching argument is that the role of images in American Protestantism greatly expanded and developed during this period *The Bookseller*, 1883 Official organ of the book trade of the United Kingdom **Christian Register and Boston Observer...**, 1908
