Zamyatin, 1970 The Literary Underground: Writers and the Totalitarian Experience, 1900-1950 John Hoyle, 1991-06-15 This wide ranging interdisciplinary study explores the concept of totalitarianism in western thought from Rousseau to George Orwell taking its examples from twentieth century European literature A Soviet Heretic Evgenii Ivanovich Zamyatin, 1991 Essays on Ayn Rand's Anthem Robert Mayhew, 2005-05-20 In this first book length study of Ayn Rand's anti utopia Anthem essays explore the historical literary and philosophical themes presiding in this novella written in opposition to the totalitarianism of the Soviet Union and Nazi Germany Written in 1937 published in 1938 in Britain and subsequently in a revised form in the United States in 1946 Anthem investigates the importance of the ego and freedom and the individual against the state Editor Robert Mayhew has collected a variety of essays dealing with such topics including the history behind the novella's creation publication and reception its connection to other anti utopian novels and the significance of ego and freedom which it portrays and defends This book is important to philosophers as well as readers looking to gain a better understanding of Ayn Rand and Anthem

Political Theory, Science Fiction, and Utopian Literature Tony Burns, 2010-02-19 Ursula K Le Guin's *The Dispossessed* is of interest to political theorists partly because of its association with anarchism and partly because it is thought to represent a turning point in the history of utopian dystopian political thought and literature and of science fiction Published in 1974 it marked a revival of utopianism after decades of dystopian writing According to this widely accepted view *The Dispossessed* represents a new kind of literary utopia which Tom Moylan calls a critical utopia The present work challenges this reading of *The Dispossessed* and its place in the histories of utopian dystopian literature and science fiction It explores the difference between traditional literary utopia and novels and suggests that *The Dispossessed* is not a literary utopia but a novel about utopianism in politics Le Guin's concerns have more to do with those of the novelists of the 19th century writing in the tradition of European Realism than they do with the science fiction or utopian literature It also claims that her theory of the novel has an affinity with the ancient Greek tragedy This implies that there is a conservatism in Le Guin's work as a creative writer or as a novelist which fits uneasily with her personal commitment to anarchism **We Modern People** Anindita Banerjee, 2013-01-01 How science fiction forged a unique Russian vision of modernity distinct from Western models Science fiction emerged in Russia considerably earlier than its English version and instantly became the hallmark of Russian modernity *We Modern People* investigates why science fiction appeared here on the margins of Europe before the genre had even been named and what it meant for people who lived under conditions that Leon Trotsky famously described as combined and uneven development Russian science fiction was embraced not only in literary circles and popular culture but also by scientists engineers philosophers and political visionaries Anindita Banerjee explores the handful of well known early

practitioners such as Briusov Bogdanov and Zamyatin within a much larger continuum of new archival material comprised of journalism scientific papers popular science texts advertisements and independent manifestos on social transformation In documenting the unusual relationship between Russian science fiction and Russian modernity this book offers a new critical perspective on the relationship between science technology the fictional imagination and the consciousness of being modern
