Soviet Industrialization 1928 1952:

Soviet Industrialization, 1928-1952 Naum Jasny, 1952 **Social Dimensions of Soviet Industrialization** William G. Rosenberg, Lewis H. Siegelbaum, 1993 This is a fine book impressive in both quantity and quality *Journal of Economic History* The collection stands out as one of the most useful volumes currently available on the Soviet Union in the 1930s *Labour History Review* Altogether this book succeeds in opening up the social history of the Soviet Union in the era of planning for those students and scholars who are ready to advance beyond the old stereotypes ILWCH The pathbreaking essays assembled here examine the complex pattern of relationships between the first Five Year Plans and the society and culture of Stalinist Russia Discussion focuses on urbanization social mobility questions of social identity and the cultural constructions of the industrialization drive as well as work organization management relations and the underlying processes of industrial organization **Soviet Locomotive Technology During Industrialization, 1928-1952** J. N. Westwood, 1982 *The Economic Transformation of the Soviet Union, 1913-1945* R. W. Davies, Mark Harrison, S. G. Wheatcroft, 1994 Leading scholars in the field analyse the Soviet economy sector by sector to make available in textbook form the results of the latest research on Soviet industrialisation **Industry, State, and Society in Stalin's Russia, 1926-1934** David R. Shearer, 2018-09-05 In his reexamination of the origins of the Stalinist state during the formative period of rapid industrialization in the late 1920s and early 1930s David R Shearer argues that a centralized state controlled economic system was the consciously conceived political creation of Stalinist leaders rather than the inevitable by product of socialist industrialization Focusing on the different economic and bureaucratic cultures within the industrial system Shearer reconstructs the debates in 1928 and 1929 over administrative financial and commercial reform He uses information from recently opened archives to show that attempts by the state s trading organizations to create a commercial economy enjoyed wide support offering a model that combined planning and rapid industrialization with social democracy and economic prosperity In an effort to crush the syndicate movement and establish tight political control over the economy Stalinist leaders intervened with a program of radical reforms Shearer demonstrates that professional engineers planners and industrial administrators in many cases actively supported the creation of a powerful industrial state unhampered by domestic social and economic constraints The paradoxical result Shearer shows was a loss of control The overly centralized system that emerged during the first Five Year Plan was rendered incoherent by periodic economic crises and the continuing influence of partially suppressed social and market forces *Peasant Metropolis* David L. Hoffmann, 2018-08-06 During the 1930 s 23 million peasants left their villages and moved to Soviet cities where they comprised almost half the urban population and more than half the nation s industrial workers Drawing on previously inaccessible archival materials David L Hoffmann shows how this massive migration to the cities an influx unprecedented in world history had major consequences for the nature of the Soviet system and the character of Russian society even today Hoffmann focuses on events in Moscow

between the launching of the industrialization drive in 1929 and the outbreak of war in 1941 He reconstructs the attempts of Party leaders to reshape the social identity and behavior of the millions of newly urbanized workers who appeared to offer a broad base of support for the socialist regime The former peasants however had brought with them their own forms of cultural expression social organization work habits and attitudes toward authority Hoffmann demonstrates that Moscow s new inhabitants established social identities and understandings of the world very different from those prescribed by Soviet authorities Their refusal to conform to the authorities model of a loyal proletariat thwarted Party efforts to construct a social and political order consistent with Bolshevik ideology The conservative and coercive policies that Party leaders adopted in response he argues contributed to the Soviet Union s emergence as an authoritarian welfare state The Russian Tragedy: The Burden of History Hugh Ragsdale,2016-09-16 This work provides an interpretive history of Russia from earliest times to today recounting the story of Russia s past It discusses Russia s strengths and weaknesses as a civilization and the challenges posed by the contemporary effort to remake Russia *RESEARCH REPORTER* United States Information Agency,United States Information Agency. Office of Research,1962 **The Cambridge History of Russia: Volume 3, The Twentieth Century** Maureen Perrie,Ronald Grigor Suny,2006-11-02 A major history of twentieth century Russia by leading scholars in the field **Worker Resistance under Stalin** Jeffrey J ROSSMAN,Jeffrey J Rossman,2009-06-30 Challenging the claim that workers supported Stalin s revolution from above as well as the assumption that working class opposition to a workers state was impossible Jeffrey Rossman shows how a crucial segment of the Soviet population opposed the authorities during the critical industrializing period of the First Five Year Plan
