The Soviet Strategy of Terror Samuel T. Francis, 1981 **Strategic Terror** Beau Grosscup, 2013-07-18 Presenting a global history of aerial bombardment this book shows how certain European powers initiated aerial bombardment of civilians after World War I and how it was an instrument of choice in World War II Beau Grosscup shows that such methods used initially as a means of terrorizing native populations in Africa and the Middle East have become the primary form of terrorism in more recent decades While such strategic terror is not classed as terrorism in the West this reflects an unwillingness to confront the human costs and immorality of aerial bombardment Grosscup argues that if terrorism is to be diminished the role of aerial bombing in sustaining global violence must be recognized Historical Antecedents of Soviet Terrorism United States. Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition, 1988 **The Darkest Sides of Politics, II** Jeffrey M. Bale, 2017-10-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The second volume in this two volume collection focuses primarily on assorted religious extremists including apocalyptic millenarian cults Islamists and jihadist terrorist networks as well as CBRN chemical biological radiological and nuclear terrorism and the supposedly new nexus between organized criminal and extremist groups employing terrorist operational techniques A range of global case studies are included most of which focus on the lesser known activities of certain religious extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics **Beating international terrorism an action strategy for preemption and punishment** Stephen Sloan, 1986 *Iran-Contra Investigation: Appendixes to parts I and II* United States. Congress. Senate. Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition, 1988 **Tracing the Discourses of Terrorism** O. Ditrych, 2014-04-22 This unique historical study explores how states have articulated statements about terrorism since the 1930s and what effect these discourses have had on global politics Ditrych s analysis challenges established understandings of terrorism providing a new conceptualization of how terrorism discourse emerged historically
