Soviet Union Through French Eyes 1945 19:

Soviet Union Through French Eyes, 1945-85 Robert Desjardins, 1988-06-18 **Intellectuals in Twentieth-Century France** Jeremy Jennings, 2016-07-27 This book examines the role and place of the intellectual in twentieth century French society The essays are for the most part written by eminent French scholars and make available to the English speaking reader a growing body of research which explores the ethical and historical issues raised by the prominence of the intellectual in politics since the Dreyfus Affair The volume concludes with an examination of the contrasting and complementary roles of the French and British intellectual **Leading Russia: Putin in Perspective** Alex Pravda, 2005-05-26 Leaders and leadership continue to dominate Russia's political development Like his predecessors in the Kremlin Vladimir Putin has made a crucial impact on the substance and style of Russian politics His efforts to use traditional tools of state power to manage democracy and market capitalism have had mixed effects on both Leading Russia investigates the ambiguities and contradictions of Putin's rule from four perspectives The volume first considers his leadership in the context of Russia's convulsive historical cycle of revolutionary transformation breakdown consolidation and stagnation The study then analyses how normative and institutional components of democracy have fared under Putin's regime of stronger executive control It proceeds to examine the strengths and weaknesses of presidential power vis vis bureaucratic regional and corporate groups The volume concludes with two assessments of the strategic direction in which Putin is taking Russia They explore the tensions between bureaucratic authoritarian trends and Putin's apparent commitment to electoral democracy market capitalism and alignment with the West The book helps to deepen our understanding of the cultural and institutional factors shaping Putin's leadership approach and policy priorities More widely it sheds light on the complexity of the relationship between post communist leadership democracy and economic modernization Joseph Stalin and the Art of Tyranny William Nester, 2025-10-30 Joseph Stalin and the Art of Tyranny examines authoritarian rule revealing how tyrants sustain power through a mix of comfort terror love and fear often convincing their subjects of their divine purpose Such leaders build systems of loyalists and subservient institutions enabling unchecked authority Joseph Stalin exemplifies this tyranny As Soviet leader from 1929 to 1953 he implemented totalitarian policies nationalizing industry and agriculture controlling economic production through five year plans and eliminating dissent through imprisonment forced labour or execution His brutal regime caused an estimated 20 million deaths Despite this grim legacy Stalin's reputation remains divisive In Western democracies he is remembered as a genocidal dictator but in Russia he often ranks among the most admired historical figures illustrating the paradox of his influence Stalinism served as a model for Communist regimes in China Vietnam and Cuba shaping their governance While many of these nations transitioned toward democracy countries like Russia China and North Korea continue to echo Stalinist practices Modern leaders such as Saddam Hussein Vladimir Putin and Xi Jinping have adopted similar strategies of control Joseph Stalin and the Art of Tyranny offers crucial insights into

authoritarianism revealing the enduring appeal and devastating impact of totalitarian rule **NATO in the Beholder's Eye**
 Vojtech Mastny, 2002 **Bibliographic Guide to Soviet and East European Studies**, 1978 Europeans Are Lovin' It?
Coca-Cola, McDonald's and Responses to American Global Businesses in Italy and France, 1886-2015 Giulia
 Crisanti, 2023-09-25 From the French origin of Coca Cola to McDonald's sponsorship of the 2015 Milan Expo the book
 presents the first comparative history of these multinational corporations in two Western European countries addressing
 some compelling questions to what extent our increasingly globalized world is persistently shaped by forms of American
 hegemony and what are some of the forces that have been most effective at challenging the relationship between
 Americanization and globalization Through the local history of global companies the book tells a new story about not only the
 influence of American businesses in Europe but also the influence of European governments and societies on those American
 businesses and their adaptability Forthcoming Books Rose Arny, 2000-06 **Intelligence Agencies, Technology and**
Knowledge Production Rüdiger Bergien, Debora Gerstenberger, Constantin Goschler, 2022-02-17 This volume examines
 intelligence services since 1945 in their role as knowledge producers Intelligence agencies are producers and providers of
 arcane information However little is known about the social cultural and material dimensions of their knowledge production
 processing and distribution This volume starts from the assumption that during the Cold War these core activities of
 information services underwent decisive changes of which scientization and computerisation are essential With a focus on
 the emerging alliances between intelligence agencies science and computer technology the chapters empirically explore
 these transformations and are characterised by innovative combinations of intelligence history with theoretical
 considerations from the history of science and technology and the history of knowledge At the same time the book challenges
 the bipolarity of Cold War history in general and of intelligence history in particular in favour of comparative and
 transnational perspectives The focus is not only the Soviet Union and the United States but also Poland Turkey the two
 German states and Brazil This approach reveals surprising commonalities across systems time and again the expansion and
 use of intelligence knowledge came up against the limits that resulted from intelligence culture itself The book enriches our
 global understanding of knowledge of the state and contributes to a historical framework for the past decade of debates
 about the societal consequences of intelligence data processing This book will be of much interest to students of intelligence
 studies science and technology studies security studies and International Relations **Soviet Foreign Policy, 1917-1991**
 Gabriel Gorodetsky, 1994 A comprehensive assessment of Soviet relations with the West set in the context of the emergence
 of a new Russia This volume analyzes the formulation of foreign policy during the period from the first decade of the
 Bolshevik Revolution through the gradual erosion of ideological differences
