Space Out Episode I:

Episode One: Lights, Camera, Impact! (science fiction adventure comedy serial) (free science fiction) T.L.

Charles,2015-08-02 As adventurers of the grand cosmos Mr Jason Space and Captain Helena Galaxy seek to discover new worlds and new adventures and to have fun while doing it They will never do paid mercenary work no matter how good the offer for they are explorers and not mercenaries They will complete every mission they undertake no matter how much trouble it gets them into And they will never give up regardless of whatever menacing aliens or dangerous obstacles they run into When Galaxy travels to the uninhabited world of Magna 5 she goes there only to find rare rocks she and Space can sell to geologists for money to help fuel their travels across the universe But when Galaxy finds herself alone up against an old fashioned assassin who is trying to kill a famed holofilm director and with a meteor on its way to devastate the planet s surface Galaxy must race against time to stop the assassin and get off Magna 5 before it is too late **KEYWORDS** science fiction action adventure series science fiction action adventure humor science fiction serial science fiction humorous science fiction humor serial science fiction comedy science fiction comedy adventure

Life After Narcissistic Abuse: There Is Healing and Hope Cynthia Bailey-Rug,2015-07-08 Narcissistic abuse is among the most painful and traumatic things anyone can endure It destroys your self esteem your perception of yourself and others and more In Life After Narcissistic Abuse There Is Healing and Hope the author describes not only the various and sometimes unexpected types of problems narcissistic abuse causes but also ways to help yourself heal

The Subjective Self Harwood Fisher,2001-01-01 For all their strides in understanding how we create and think about cultures psychologists linguists and logicians have had difficulty explaining how we conceive our selves how the self can in fact be both the object and the subjective originator of its surroundings Harwood Fisher s purpose in this far reaching interdisciplinary book is to depict the subjective self in its true complex duality In *The Subjective Self* Fisher argues that the key to depicting both aspects of the self simultaneously and thus modeling it more holistically than before is to visualize the self in a logical space From an origin point inside this space the self tries out metaphors and launches categories to logically order what it wants sees and encounters This is a creative cognitive process metaphoric framing by which the self invents new forms and depicts new organizations of its experiences impressions and information It is also a generative linguistic process bracketing by which the self can step outside its own expressed thoughts gain new levels of awareness re position itself as an agent responsible for its ideas and statements and in short empower its own identity The framing sets in motion versatile mental categories forms that are projected into mental space where they become objectified The bracketing sets in motion the logical bounds of the I stabilizing the individual s identity and giving thrust to the subjective self s dynamic causal role In elaborating this theory Fisher extends the ideas of Kurt Lewin Jean Piaget and C S Peirce among others By drawing on each of these thinkers he is able to bring their common themes of perspective and construction together in his portrait of the self as a creative iconic space Growing Pains Dr

Mike Shooter,2018-02-08 A remarkable powerful tender and insightful book that will change lives Stephen Fry A unique book The stories Shooter tells are poignant and powerful testimonies to the resilience of the human spirit Marjorie Wallace CBE Through fascinating case studies Dr Mike Shooter explores issues such as grief bullying family breakdown and self harm It s a compelling and fascinating glimpse into his career but is also full of insights into the minds of children the struggles of growing up and the challenges of parenting Max Pemberton Daily Mail An excellent read for psychiatrists and other mental health professionals whether they work with children or adults MDEdge Child psychiatrist Dr Mike Shooter sheds light on the painful issues and universal experience of growing up through the stories of his patients and their families Growing up isn t easy We can be at our most vulnerable and confused And the right help isn t always there when we need it most For over forty years psychiatrist Mike Shooter has listened to children and adolescents in crisis helping them to find their stories and begin to make sense of their lives Mike Shooter s own life has been shaped by his battle with depression It makes him question received wisdom He knows labels won t always fit and one diagnosis will not work for all His patients stories are at the heart of this book Mike Shooter shares their journey as through therapy they confront everything from loss and family breakdown to bullying grief and illness We see how children begin to make breakthroughs with depression or anxiety destructive even sometimes violent behaviour Growing Pains is compelling and compassionate a book to make us wiser and braver and to help us see how children s stories can find happier endings **I Am a Strange Loop** Douglas R

Hofstadter,2007-08-01 One of our greatest philosophers and scientists of the mind asks where does the self come from and how our selves can exist in the minds of others Can thought arise out of matter Can self soul consciousness I arise out of mere matter If it cannot then how can you or I be here I Am a Strange Loop argues that the key to understanding selves and consciousness is the strange loop a special kind of abstract feedback loop inhabiting our brains The most central and complex symbol in your brain is the one called I The I is the nexus in our brain one of many symbols seeming to have free will and to have gained the paradoxical ability to push particles around rather than the reverse How can a mysterious abstraction be real or is our I merely a convenient fiction Does an I exert genuine power over the particles in our brain or is it helplessly pushed around by the laws of physics These are the mysteries tackled in I Am a Strange Loop Douglas Hofstadter s first book length journey into philosophy since G del Escher Bach Compulsively readable and endlessly thought provoking this is a moving and profound inquiry into the nature of mind **Angel - Vol. 1: Heroes & Guardian Angels** Natalie Clubb,Senior
