Spaces For The Sacred Place Memory And Identity

Marie Cartier

Spaces For The Sacred Place Memory And Identity:

Spaces for the Sacred Philip Sheldrake, 2001-01-31 In *Spaces for the Sacred* Philip Sheldrake brilliantly reveals the connection between our rootedness in the places we inhabit and the construction of our personal and religious identities Based on the prestigious Hulsean Lectures he delivered at the University of Cambridge Sheldrake's book examines the sacred narratives which derive from both overtly religious sites such as cathedrals and secular ones like the Millennium Dome and it suggests how Christian theological and spiritual traditions may contribute creatively to current debates about place

St Paul's Cathedral Precinct in Early Modern Literature and Culture Roze Hentschell, 2020-06-16 Prior to the 1666 fire of London St Paul's Cathedral was an important central site for religious commercial and social life in London The literature of the period both fictional and historical reveals a great interest in the space and show it to be complex and contested with multiple functions and uses beyond its status as a church St Paul's Cathedral Precinct in Early Modern Literature and Culture Spatial Practices animates the cathedral space by focusing on the every day functions of the building deepening and sometimes complicating previous works on St Paul's St Paul's Cathedral Precinct in Early Modern Literature and Culture is a study of London's cathedral its immediate surroundings and its everyday users in early modern literary and historical documents and images with special emphasis on the late sixteenth and early seventeenth centuries It discusses representations of several of the seemingly discrete spaces of the precinct to reveal how these spaces overlap with and inform one another spatially and argues that specific locations should be seen as mutually constitutive and in a dynamic and ever evolving state The varied uses of the precinct including the embodied spatial practices of early modern Londoners and visitors are examined including the walkers in the nave sermon goers those who shopped for books the residents of the precinct the choristers and those who were devoted to church repairs and renovations

Truth-Telling and Other Ecclesial Practices of Resistance Christine Helmer, 2021-05-25 In this book leading American Lutheran theologians inspired by the Scandinavian emphasis on theology as embodied practice ask how Christian communities might be mobilized for resistance against systemic injustices They argue that the challenges we confront today as citizens of the United States as a species in relation to all the other species on the planet and as members of the body of Christ require an imaginative reconceptualization of the inherited tradition The driving force of each chapter is the commitment to truth telling in naming the church's complicity with social and political evils and to reorienting the church to the truth of grace that Christianity was created to communicate Contributors ask how ecclesial resources may be generatively repurposed for the church in the world today for church building grounded in Christ and for empowering the church's witness for justice The authors take up the theme of resistance in both theoretical and pragmatic terms on the one hand rethinking doctrine on the other reconceiving lived religion and pastoral care in light of the necessary urgencies of the time and bearing witness to the God whose truth includes both justice and hope

H.D. and Modernist Religious Imagination Elizabeth Anderson, 2013-08-01

Exploring the intersection of religious sensibility and creativity in the poetry and prose of the American modernist writer H D this volume explores the nexus of the religious the visionary the creative and the material Drawing on original archival research and analyses of newly published and currently unpublished writings by H D Elizabeth Anderson shows how the poet's work is informed by a range of religious traditions from the complexities and contradictions of Moravian Christianity to a wide range of esoteric beliefs and practices H D and *Modernist Religious Imagination* brings H D's texts into dialogue with the French theorist Hélène Cixous whose attention to writing imagination and the sacred has been a neglected but rich critical and theological resource In analysing the connection both writers craft between the sacred the material and the creative this study makes a thoroughly original contribution to the emerging scholarly conversation on modernism and religion and the debate on the inter relation of the spiritual and the material within the interdisciplinary field of literature and religion

Baby, You are My Religion Marie Cartier, 2014-09-11 *Baby You Are My Religion* argues that American butch femme bar culture of the mid 20th Century should be interpreted as a sacred space for its community Before Stonewall when homosexuals were still deemed mentally ill these bars were the only place where many could have any community at all *Baby You are My Religion* explores this community as a site of a lived corporeal theology and political space It reveals that religious institutions such as the Metropolitan Community Church were founded in such bars that traditional and non traditional religious activities took place there and that religious ceremonies such as marriage were often conducted within the bars by staff *Baby You are My Religion* examines how these bars became not only ecclesiastical sites but also provided the fertile ground for the birth of the struggle for gay and lesbian civil rights before Stonewall **Creating Sacred Places**

in First Century Corinth Alisha N. Paddock, 2025-06-29 This book applies spatial theories from human and cultural geography to the archaeological remains of Ancient Corinth in order to consider how sacred places could have been created in the first century Building on Philip Sheldrake's theory among others the book defines sacred place as a space with significance Significance is found in the group's spiritual history their identity and the proper behaviours required to keep the group remaining a group The book further argues that if any of these elements of place are not recognized nor upheld the group risks becoming placeless *Studying Christian Spirituality* David B. Perrin, 2007-08-07 This book provides a new introduction to the study of Christian spirituality exploring it through the human sciences and ranging from philosophy and hermeneutics to psychology history sociology and anthropology Systematic and progressive it introduces the key approaches and shows how they relate to the understanding study and practice of spirituality Covering a vast amount of ground from traditional themes such as images of God spiritual direction and pilgrimage to more contemporary issues such as place and space cyberspace and postcolonialism the author takes an ecumenical inclusive stance allowing the book to be used in a wide variety of courses and across denominations *The Church, Authority, and Foucault* Steven G. Ogden, 2017-02-03 The

Church Authority and Foucault addresses the problem of the Church's enmeshment with sovereign power which can lead to

marginalization Breaking new ground Ogden uses Foucault's approach to power and knowledge to interpret the church leader's significance as the guardian of knowledge This can become privileged knowledge under the spell of sovereign power and with the complicity of clergy and laity in search of sovereigns Inevitably such a culture leads to a sense of entitlement for leaders and conformity for followers All in the name of obedience The Church needs to change in order to fulfil its vocation Instead of a monarchy what about Church as an open space of freedom This book then is a theological enterprise which cultivates practices of freedom for the sake of the other This involves thinking differently by exploring catalysts for change which include critique space imagination and wisdom In the process Ogden uses a range of sources analysing discourse gossip ritual territory masculinity and pastoral power In all the work of Michel Foucault sets the tone for a fresh ecclesiological critique that will appeal to theologians and clergy alike **The Extreme Gone Mainstream** Cynthia Miller-Idriss, 2019-12-03 This book comes at a time that could hardly be more important Miller Idriss opens up a completely new approach to understanding the processes of violent radicalization through subcultural products and will surely become a standard work in the study of right wing extremism Daniel Koehler founder and director of the German Institute on Radicalization and De Radicalization Studies dies **Neither Here nor There** Timothy Carson, 2019-02-28 Neither Here nor There The Many Voices of Liminality draws together the expertise experience and insights of a coterie of authors all of whom relate the core concepts of liminality to their unique contexts The experience of and inquiry into liminal phenomena have developed into a distinct discipline of study which now crosses and informs many areas of thought including anthropology sociology theology psychology literature and education New vistas of interdisciplinary study have opened as a result of sharing the common language and symbol system of liminality This anthology reflects the current resurgence of liminality and provides a critical source book ideal for individual reflection study groups classes and seminars From the inner workings of spiritual life to large social transformations liminality now provides a powerful interpretive tool and effective method for spiritual direction teaching and leadership
