Film Noir and the Spaces of Modernity Edward Dimendberg, 2004-06-15 Exploring classic examples of film noir such as *The Asphalt Jungle* *Double Indemnity* and *The Naked City* alongside many lesser known works Dimendberg confirms that noir is not simply a reflection of modernity but a virtual continuation of the spaces of the metropolis

GO: On the Geographies of Gunnar Olsson Martin Gren, 2016-04-22 Since the early 1960s the internationally acclaimed and highly distinguished Swedish geographer Gunnar Olsson has made substantial contributions to his own discipline In addition because of the transgressive nature of his work and writing which often borders to art and philosophy his ideas and approaches have reached a wider audience of those interested in the history and geography of ideas culture and human reasoning Olsson's recent masterpiece *Abysmal* is a

minimalist guide to the territory of Western culture In it he investigates how cartographical reason enables people to think about and navigate the abstract world of invisible human relations in much the same way as they are able to study and traverse the physical Earth by using maps and mapping This book presents a comprehensive introduction to and overview of the entire range of Olsson s geography from the early days of spatial science to his contemporary engagement with and critique of cartographical reasoning It includes selected samples of Olsson s own writings including rarities together with a consolidated bibliography of his publications It also contains critical engagements from leading scholars such as Michael Dear Michael Watts Chris Philo and Marcus Doel with Olsson s geography from a variety of perspectives which are particularly valuable to those readers who already know his work It is structured and written in a way that makes Olsson s geography accessible to a wide readership including those who are not already familiar with Olsson s work Experiencing Cities Mark Hutter,2015-12-22 This extraordinary text for undergraduate urban students is a reflection of Mark Hutter s academic interests in urban sociology and his life long passion for experiencing city life His deep academic roots in the Chicago School of Sociology help inform and appreciate the variety of urban structures and processes and their effect on the everyday lives of people living in cities This text however extends the Chicago School perspective by combining its traditions with a social psychological perspective derived from symbolic interaction and also with a macro level examination of social organization social change stratification and power in the urban context informed by political economy This entirely new 3rd Edition has a global outlook on city life and a visual presentation unmatched among books in this genre *The Social Fabric of Cities* Vinicius M. Netto,2016-09-19 Bringing together ideas from the fields of sociology economics human geography ethics political and communications theory this book deals with some key subjects in urban design the multidimensional effects of the spatial form of cities ways of appropriating urban space and the different material factors involved in the emergence of social life It puts forward an innovative conceptual framework to reconsider some fundamental features of city making as a social process the place of cities in encounters and communications in the randomness of events and in the repetition of activities that characterise societies In doing so it provides fresh analytical tools and theoretical insights to help advance our understanding of the networks of causalities contingencies and contexts involved in practices of city making In a systematic attempt to bring urban analysis and research from the social sciences together the book is organised around three vital yet relatively neglected dimensions in the social and material shaping of cities i Cities as systems of encounter an approach to urban segregation as segregated networks ii Cities as systems of communication a view of shared spaces as a means to association and social experience iii Cities as systems of material interaction explorations on urban form as an effect of interactivity and interactivity as an effect of form Visit the author s website at <http://socialfabric.city> The York Mystery Cycle and the Worship of the City Pamela M. King,2006 An investigation into the connections between the York Plays religious observance and the role played by the city itself WINNER of the 2007 David Bevington Prize The York Play is

the earliest near complete English civic mystery cycle It evolved constantly throughout its long performance history but the text that was recorded in the York Register shows that it was already a mature and elaborate civic festival by the time it was written down This study uncovers the Cycle's connection with worship in York in the sense both of devotional practice and of civic honour informing a particular period in the cultural history of the city The pageants in the Register show in their different ways how the community which devised and performed the Cycle regarded the celebration of the great summer feast of Corpus Christi Moreover the principles of selection that give the Cycle its structure reflect the broader pattern of the liturgical calendar with its other feasts and fasts The Cycle bears witness not only to the practices of religious observance in York but also to the ecclesiastical politics in which the city was caught up from the very beginning of the fifteenth century

PAMELA KING is Professor of Medieval Studies at the University of Bristol *Cases of Intervention* Marie Hologa, 2013-08-19 *Cases of Intervention* offers new perspectives on the case study as a research tool with a long standing tradition in British cultural studies Despite this significance it has hardly ever been explicitly reflected upon as a method but in this volume it takes centre stage Scholars from interdisciplinary fields have written succinctly on diverse topics the eleven case studies are comprehensible and lucid applications of theoretical approaches to topics such as the British cup of tea CCTV and monarchs on film This book will give readers the opportunity to discover the broad spectrum of approaches that make British cultural studies an indispensable discipline for discourses in academia and beyond Each case study presented here illuminates the relationship between cultural practices and theory By choosing cases embedded in everyday life the focus of each contribution is on the potential of pragmatic intervention
