Spacing Of Planets Solution Of 400 Year

Alexander Alan Scarborough

Spacing Of Planets Solution Of 400 Year:

The Spacing of Planets Alexander Alan Scarborough, 2000-11 In this revolutionary work Scarborough takes us from the Copernican idea of our sun centered Solar System to the recent discoveries of giant exoplanets as he seeks to do no less than rebuild the foundations of knowledge of the origins and evolution of planets A retired researcher he offers new answers to questions that have puzzled philosophers for centuries How did Planet Earth come into being How and why did the planetary orbits of our Solar System form in a mathematical pattern The answers will cause scientists to rethink beliefs about the origins and evolution of planets Scarborough addresses these profound questions with powerful substantive evidence that voids the need for speculative uncertainties now common in current theories of planet formation The book opens with an insightful and startling account of his solution to the new Fourth Law of Planetary Motion explaining how the nebulous planetary masses attained their orbital spacing around the sun With Kepler s Three Laws of Planetary Motion the Four Laws reveal the explosive dynamic origin of our Solar System some five billion years ago and thus challenging the modified Laplace accretion concept of planet formation The author then gives definitive insights into how and why each planet evolves through five common stages of evolution in full accord with size Origins of Universal Systems Alexander Alan Scarborough, 2008-09-19 When the right answers are found they will be simple and beautiful Einstein Paraphrasing Thomas Kuhn in his Structure of Scientific Revolutions there can be no change in direction of scientific thought unless there is a viable alternative Now after 35 years of persistent research the author s plethora of substantiated evidence offers science a valid alternative to the Big Bang the LB FLIN BEC model of universal origins one that fulfills Einstein s prediction and meets Kuhn s criteria In fulfilling both predictions the new model reveals a plethora of impossibilities comprising the Big Bang myth while forming powerful arguments for relegating the Big Bang to the ashes of history The revolutionary model a macroscopic theory of everything is ideal for a microscopic Theory of Everything Thomas Huxley stated it best The microcosm repeats the macrocosm a connection placing science in a favorable position for attaining the long sought Theory of Everything As long as the Big Bang Accretion hypotheses remain in vogue comprehending universal origins and functions will remain impossible In sharp contrast the new model alternative opens floodgates to definitive evidence of universal origins and functions Why in the Big Bang perspective substantiated solutions to universal anomalies will always remain unattainable while in the LB FLIN BEC perspective substantiated solutions to universal anomalies are readily attainable Three simple and beautiful examples out of many The dynamic fiery geometrical spacing of planets in elliptical orbits Why Pluto was originally the tenth planet in our Solar System and now is the ninth planet Why extra solar systems are weirdly different from our geometrically spaced Solar System **Answer Book** National Geographic Society (U.S.), 2009 Covers everything from earth sciences to astronomy from climate and habitats to human arts and cultures from ancient history to cutting edge technology and descriptions flags and statistics of all the countries in the world *Simple Solutions for*

Humanity Patrick Kenji Takahashi, 2008-02-29 Book 1 SIMPLE SOLUTIONS for Planet Earth dealt with energy and the environment SIMPLE SOLUTIONS for Humanity provides ultimate answers for our society and beyond Ever wonder if there could ever be a way to end crime and war forever or the prospects for immortality or a better educational system or the reality of extraterrestrial intelligence or the future of religion If all the above can be satisfactorily resolved then just in case there is no afterlife where is the best place to live on Earth today Simple solutions of course are hardly that How to end crime What about three strikes and you re dead Sure this should work but it s not morally rational The solution to war is incredibly simple Just read the book and find out how Scientists are getting very close to determining a way to disarm our aging gene When will this happen Our educational system is flawed Be prepared to be shocked by the Stanford Marshmallow Study Then find out that our terrible student scores relative to the developed world might not be worth all the anguish The USA will prevail because of our superiority in Could the solution for world peace or curing cancer be streaming in from space The Search for Extraterrestrial Intelligence could someday soon detect what would be the most monumental discovery since the invention of God How can religion overcome the immorality of purporting to promise an afterlife WITHOUT ANY PROOF A Golden Evolution is suggested Are you one of those who largely wasted your life looking out only for yourself family and friends Could there be a higher calling You too can make a positive difference Rainbow Vision is explained to equip you with the tools to help save Planet Earth and Humanity
