Let's Go Spain & Portugal, Including Morocco 2001 Meredith Lea Petrin, 2000 Identification and Ecology of Freshwater Arthropods in the Mediterranean Basin Alain Maasri, James H. Thorp, 2023-10-31 Identification and Ecology of Freshwater Arthropods in the Mediterranean Basin covers the entire Mediterranean basin including parts of Europe Asia Africa and the Mediterranean islands but excluding other biogeographic locations with Mediterranean climates located outside the region The book provides an extensive description of the taxonomy and ecology of aquatic arthropods encountered in lentic and lotic habitats as well as in less studied underground and estuarine habitats It offers expanded taxonomic identification keys to major groups of arthropods with a description of their ecology and distribution Keys for insects include aquatic larval stages and water dwelling adults of Coleoptera and Heteroptera Additional sections focus on taxa that can be encountered in adjacent brackish and estuary ecosystems as long as the taxon primarily occurs in freshwaters This is a much needed comprehensive resource on the taxonomy and ecology of freshwater arthropods with an introduction to recent molecular tools for identifications It will be particularly useful for freshwater ecologists limnologists environmentalists and students in the ecological sciences Presents taxonomic keys to genera and species to the majority of aquatic arthropod families Provides coverage of all freshwater ecosystems of the Mediterranean basin with case studies and examples Includes numerous photographs of the aquatic arthropods described in the chapters Covers the ecology and taxonomy of organisms living in more traditionally studied lakes and streams as well as in less studied underground and estuarine habitats Handbook of the Economics of International Migration Barry Chiswick, Paul W. Miller, 2014-11-04 The economic literature on international migration interests policymakers as well as academics throughout the social sciences These volumes the first of a new subseries in the Handbooks in Economics describe and analyze scholarship created since the inception of serious attention began in the late 1970s This literature appears in the general economics journals in various field journals in economics especially but not exclusively those covering labor market and human resource issues in interdisciplinary immigration journals and in papers by economists published in journals associated with history sociology political science demography and linguistics among others Covers a range of topics from labor market outcomes and fiscal consequences to the effects of international migration on the level and distribution of income and everything in between Encompasses a wide range of topics related to migration and is multidisciplinary in some aspects which is crucial on the topic of migration Appeals to a large community of scholars interested in this topic and for whom no overviews or summaries exist *In the Lands of the Enchanted Moorish Maiden: Islamic Art in Portugal (Islamic Art in the Mediterranean)* Cláudio Torres, Santiago Macias, Susana Gómez, 2013-06-01 **Spain** Joseph Harrison, David Corkill, 2016-03-09 Perhaps more than any other European country Spain has undergone a remarkable transformation in the post war period To the surprise of many it has succeeded in making the leap from a predominantly agricultural and politically repressed country to a modern

European democracy with a diversified economy containing important manufacturing and service sectors Yet despite the fact that at the beginning of the twenty first century Spain is the world s eighth largest economy old stereotypes that see the Iberian nation as an inflexible unchanging society persist As such scholars will welcome this new study which challenges the picaresque and outdated notions of Spanish economic development replacing them with a picture of rapid and profound modernization Building upon the recent work of historians and economists the authors provide a thoughtful and compelling overview of the subject that clearly elucidates both the positive and negative aspects of modern Spanish development Thus as well as charting the undoubted successes achieved persistent problems most notably high unemployment are also explored Written in a straightforward and engaging manner this book engages with research from a wide variety of disciplines and will be of interest to anyone with a specific interest in modern Spain or a wider interest in economic development within the framework of the European Union
