Bansat-Boudon,Kamalesha Datta Tripathi,2014-06-11 The Param rthas ra or Essence of Ultimate Reality is a work of the Kashmirian polymath Abhinavagupta tenth eleventh centuries It is a brief treatise in which the author outlines the doctrine of which he is a notable exponent namely nondualistic aivism which he designates in his works as the Trika or Triad of three principles iva akti and the embodied soul nara The main interest of the Param rthas ra is not only that it serves as an introduction to the established doctrine of a tradition but also advances the notion of jiv anmukti liberation in this life as its core theme Further it does not confine itself to an exposition of the doctrine as such but at times hints at a second sense lying beneath the evident sense namely esoteric techniques and practices that are at the heart of the philosophical discourse Its commentator Yogar ja eleventh century excels in detecting and clarifying those various levels of meaning An Introduction to Tantric Philosophy presents along with a critically revised Sanskrit text the first annotated English translation of both
