Exile and Cultural Hegemony Sebastiaan Faber, 2002 After Francisco Franco's victory in the Spanish Civil War a great many of the country's intellectuals went into exile in Mexico During the three and a half decades of Francoist dictatorship these exiles held that the Republic not Francoism represented the authentic culture of Spain In this environment as Sebastiaan Faber argues in *Exile and Cultural Hegemony* the Spaniards' conception of their role as intellectuals changed markedly over time The first study of its kind to place the exiles' ideological evolution in a broad historical context *Exile and Cultural Hegemony* takes into account developments in both Spanish and Mexican politics from the early 1930s through the 1970s Faber pays particular attention to the intellectuals' persistent nationalism and misplaced illusions of pan-Hispanist grandeur which included awkward and ironic overlaps with the rhetoric employed by their enemies on the Francoist right This embrace of nationalism together with the intellectuals' dependence on the increasingly authoritarian Mexican regime and the international climate of the Cold War eventually caused them to abandon the Gramscian ideal of the intellectual as political activist in favor of a more liberal apolitical stance preferred by among others the Spanish philosopher Jose Ortega y Gasset With its comprehensive approach to topics integral to Spanish culture both students of and those with a general interest in twentieth century Spanish literature history or culture will find *Exile and Cultural Hegemony* a fascinating and groundbreaking work

The Cambridge Companion to the Spanish Novel Harriet Turner, Adelaida López de Martínez, 2003-09-11 *The Cambridge Companion to the Spanish Novel* presents the development of the modern Spanish novel from 1600 to the present Drawing on the combined legacies of *Don Quijote* and the traditions of the picaresque novel these essays focus on the question of invention and experiment on what constitutes the singular features of evolving fictional forms It examines how the novel articulates the relationships between history and fiction high and popular culture art and ideology and gender and society Contributors highlight the role played by historical events and cultural contexts in the elaboration of the Spanish novel which often takes a self-conscious stance toward literary tradition Topics covered include the regional novel women writers and film and literature This companionable survey which includes a chronology and guide to further reading conveys a vivid sense of the innovative techniques of the Spanish novel and of the debates surrounding it

Roberto Gerhard Monty Adkins, Rachel E. Mann, 2022-11-10 Marking the 125th anniversary of the birth of Roberto Gerhard this work views the composer's life and oeuvre through the lens of the Spanish Civil War exile and cultural translation Through these different threads a new and more nuanced understanding of Gerhard and the political and cultural milieu that influenced his work emerges

Spanish New York Narratives 1898-1936 David Miranda-Barreiro, 2017-07-05 In the early decades of the twentieth century New York caught the attention of Spanish writers Many of them visited the city and returned to tell their experience in the form of a literary text That is the case of *Pruebas de Nueva York* 1927 by Jose Moreno Villa 1887 1955 *El crisol de las razas* 1929 by Teresa de Escoriaza 1891 1968 *Anticipolis* 1931 by Luis de Oteyza 1883 1961 and *La ciudad automática* 1932 by Julio Camba 1882 1962 In tune with similar representations in other European works the image of New York given in these texts reflects the tensions and anxieties generated by the modernisation embodied by the United States These authors project onto New York their concerns and expectations about issues of class gender and ethnicity that were debated at the time in the context of the crisis of Spanish national identity triggered by the end of the empire in 1898 **Spectacle and Topophilia** David R. Castillo, Bradley J. Nelson, 2012 Significant places and spaces from Granada and Catalonia to Buenos Aires and the Chicago Columbian Exposition **Constructing Spain** Nathan Richardson, 2012 Does fiction do more than just represent space Can our experiences with fictional storytelling be in themselves spatial In *Constructing Spain The Reimagination of Space and Place in Fiction and Film* Nathan Richardson explores relations between cultural representation and spatial transformation across fifty years of Spanish culture Beginning in 1953 the year Spanish space was officially reopened to Western thought and capital and culminating in 2003 the year of Aznar's unpopular involvement of his country in the second Iraq War Richardson traces in popular and critically acclaimed fiction and film an evolution in Spanish storytelling that while initially representative in nature increasingly engages its audience in spatial practices that go beyond mere

perception or conception of local material geographies In original readings of films by Luis Berlanga Luis Buñuel Alex de la Iglesia Alejandro Amenábar and Julio Medem and novels by Juan Goytisolo Antonio Muñoz Molina and Javier Marías Richardson shows this formal evolution as a necessary response to developments restorations and transformations of local landscapes that resulted during these years from various human migrations tourist invasions urban development plans resurgent nationalisms and finally globalization As these changes occur Richardson traces a shift in the works studied from mere representation of spatial change toward actual engagement with shifting physical and social geographies as they inch ever closer toward the production of an actual spatial experience for their audiences In the final chapters of this book Richardson offers in depth and highly original readings of the storytelling projects of Medem and Marías in particular showing how these two artists invite readers to not only reconceive hegemonic notions of space and place but to practice alternative notions of being in place In these final readings *Constructing Spain* points to the newest developments in contemporary Spanish narrative and film a rise of new grammars of creation to challenge the ongoing capital driven creative destruction of globalized Spanish geography
