Spatial Hauntings Space And Culture Issue 111:

The Haunted Reader and Sylvia Plath Gail Crowther, 2017-05-28 Primary research exploring why many of Sylvia Plath's readers become so attached to her as a cultural figure. An innovative and theoretical approach to the relationship between author and reader. Previously unpublished photographs. A creative exploration of ways in which fandom can manifest itself. The Haunted Reader and Sylvia Plath takes an unusual approach to studies on this enigmatic literary figure focusing on the readers rather than the historical figure herself. Working from the premise that Plath is a highly visible cultural figure, this book explores why her readers become so attached to her. Why does she have such a large and devoted following? What is it about her that attracts people and once they are drawn in, how does this fandom manifest itself? This book is based on primary research carried out by the author who has collected stories and accounts from readers of Plath and explores key areas such as the first encounter with Plath, ways in which fans feel they double with her pilgrimages that they make to places where she lived and worked, how they interact with her images and how they respond to objects owned by Plath. This study is unique and there is no other book that deals with this subject. As such, The Haunted Reader and Sylvia Plath offers a fascinating and original approach not only to Plath scholarship but to the increasing body of literature on fandom studies. Illustrations: 13 black and white photographs.

Star Wars in the Public Square Derek R. Sweet, 2015-12-01 Speculative science fiction with its underlying socio-political dialogue represents an important intersection of popular culture and public discourse. As a pop culture text, the animated series Star Wars: The Clone Wars offers critical commentary on contemporary issues, marking a moment of interplay whereby author and audience come together in what Russian philosopher Mikhail Bakhtin called collaborative meaning-making. This book critically examines the series as a voice in the political dialogues concerning human cloning, torture, just war theory, peace, and drone warfare.

Haunted Modernities Anru Lee, 2023 In 1973, twenty-five young women drowned in a ferry accident on their way to work in factories in Taiwan's Kaohsiung Export Processing Zone. Their remains were recovered and interred collectively in what came to be called the Twenty-five Maiden Ladies Tomb. Without a husband's ancestral hall where they would have been laid to rest, the spirits of these unmarried women were considered homeless and possibly vengeful, and so the Maiden Ladies Tomb was viewed as a place to be avoided, especially by young men traveling alone, fearful of encountering a female ghost searching for a husband. Over the years, numerous plans were made to revamp the tomb site, finally in 2008, at the urging of local feminist communities, the Kaohsiung City government renovated the Twenty-five Maiden Ladies Tomb and renamed it the Memorial Park for Women Laborers. Haunted Modernities interrogates the nature of shared expressions of history, sentiments, and memory as it investigates the role of these women and other female workers in the shifting public narrative during and after the Maiden Ladies Tomb renovation. By exploring the ways in which the deceased young women were perceived to haunt the living and the diverse renovations recommended, the book illuminates how women workers in Taiwan have been conceptualized in the last several decades. In their proposals

to renovate the tomb the interested parties forged specific accounts of history transforming the collective burial site according to varying definitions of heritage as Taiwan shifted to a postindustrial economy where factory jobs were no longer the main source of employment Their plans engaged with acts of remembering communal and individual to create new ways of understanding the present The Twenty five Maiden Ladies Tomb as a heritage site elucidates how history and memory are not simply about the past but part of a forward looking process that emerges from the social political and economic needs of the present legitimized and validated through its associations with the past Popular Ghosts Esther Peeren, Maria del Pilar Blanco, 2010-04-01 Haunting has long been a compelling element in popular culture and has become an influential category in academic engagements with politics economics and aesthetics While recent scholarship has used psychoanalysis and the Gothic as frameworks with which to study haunting this volume seeks to situate ghosts in the cultural imagination The chapters in Popular Ghosts are united by the impulse to theorize the cultural work that ghosts do within the trans historical contexts that comprise our understanding of everyday life These authors study the theoretical and aesthetic genealogies of the spectral while also commenting on the multiple everyday spaces that this category occupies Rather than looking to a single tradition or medium the essays in Popular Ghosts explore film novels photography television music social practices and political structures from different cultures to reopen the questions that surround our haunted sense of the everyday

Asexualities KJ Cerankowski, Megan Milks, 2024-06-27 As one of the first book length collections of critical essays on the topic of asexuality Asexualities Feminist and Queer Perspectives became a foundational text in the burgeoning field of asexuality studies This revised and expanded ten year anniversary edition both celebrates the book's impact and features new scholarship at the vanguard of the field While this edition includes some of the most cited original chapters it also features critical updates as well as new innovative work by both up and coming and established scholars and activists from around the world It brings in more global perspectives on asexualities engages intersectionally with international formations of race and racialization critiques global capital's effects on identity and kinship examines how digital worlds shape lived realities considers posthuman becomings experiments with the form of the manifesto and imagines love and relation in ecologies that exceed and even supersede the human This cutting edge multidisciplinary interdisciplinary book serves as a valuable resource for everyone from those who are just beginning their critical exploration of asexualities to advanced researchers who seek to deepen their theoretical engagements with the field **Unto the Breach** Patricia A. Cahill, 2008-11-13 The Elizabethan theatrical repertory was enthralled with the era's martial discourses and beset by its blinding visions In her richly historicized account of the theater's engagement with modern warfare Patricia Cahill juxtaposes the new military technologies and new modes of martial abstraction with the performance of war suffused dramas by Shakespeare Marlowe and their contemporaries Equally important she shows that even as early modern playwrights engaged cutting edge military practices they routinely trafficked in phenomena resistant to the new rationalities conjuring up a

domain of eerie sounds uncanny figures and haunted temporalities By going beyond the usual protocols of historicist criticism and emphasizing the complex dynamics of theatrical modes of address this wide ranging study investigates the representation of early modern war trauma and recovers for us a compelling sense of the intimate relationship between affect and intellect on the Renaissance stage Intervening in ongoing conversations about the drama s role in shaping the cultural imaginary *Unto the Breach* shows that in an era of escalating militarization England s first commercial theaters offered their audiences something of incalculable value namely a space for the performance and working through of what might otherwise remain psychically unbearable in war s violence
