America's Religious Architecture Marilyn J. Chiat, 1997-10-07 From the Moorish synagogue in small Texas town to the New England meetinghouse nestled in the palm trees of Hawaii this comprehensive historical survey of America's religious architecture celebrates the country's ethnic and spiritual diversity through the magnificent breadth of these community landmarks The first comprehensive architectural and cultural history of its kind the book features 500 places of worship nationwide many listed on the National Register of Historic Places Includes over 300 black and white photographs and foreword by Bill Moyers creator of the PBS Genesis series

The Architecture of Bergen County, New Jersey T. Robins Brown, Schuyler Warmflash, 2000 The Architecture

of Bergen County New Jersey presents an accessible overview of the county's architectural heritage and its historic structures. The volume explores the styles, trends, and events that influenced the design and setting of the region's buildings. More than 150 photos document Bergen County's architectural treasures, generating awareness and appreciation for these structures and their history. The *Architecture of Bergen County New Jersey* demonstrates the close association between architectural development at the national and local levels and shows how social, technological, and political changes occurring within the county have been reflected in the building types and styles of the area. *American Architects and Texts* Juan Pablo Bonta, 1996. In this volume, the author analyzes 400 architectural books and articles published over the past 150 years to reveal changing societal preferences in architecture and to measure the reputations of individual architects; the text includes a ranked list of the 100 most famous architects. *Vernacular Architecture Newsletter*, 1995. **Architecture in the United States, 1800-1850** William Barksdale Maynard, 2002-01-01. This study traces the development of American architecture from the age of Jefferson to the antebellum era, providing a survey of this important period. W. Barksdale Maynard overturns the long-accepted notions that the chief theme of early 19th-century American architecture was a patriotic desire to escape from European influence and that competing styles chiefly reflected the American struggle for cultural uniqueness. Instead, deep and consistent aesthetic ties, especially with England, shaped American architecture and house designs. Maynard shows that the Greek Revival, in particular, was an international phenomenon with American achievements inspired by British example and with taste taking precedence over patriotism.
