Subcultural Mosaics and Intersubjective Realities Robert Prus, 1997-01-09 The author builds on the broader interpretive constructionist ethnographic and pragmatist traditions particularly those developed within symbolic interaction to provide an agenda to refocus revitalize and synthesize the social or human sciences Robert Prus offers a set of primary assumptions that centrally respect the unique and uniquely enabling features of the human condition as well as considers a reformulation of the cultural problematic By viewing human group life as a subcultural mosaic that is more or less continuously in the making a systematic research agenda for attending to the entire realm of human involvement is developed one that opens every single arena of human endeavor to ethnographic inquiry

The Interaction Order Norman K. Denzin, 2019-02-12 This volume brings together leading scholars in the area of symbolic interactionism to offer a broad discussion of issues including identity dialogue and legitimacy

21st Century Sociology: A Reference Handbook Clifton D. Bryant, Dennis L. Peck, 2007 Publisher Description

Beyond the Power Mystique Robert Prus, 1999-02-25 Despite the considerable attention given to power by foundational sources such as Machiavelli Hobbes Weber Durkheim and Marx and those social theorists who have built on their works surprisingly little attention has been given to the study of power as an enacted feature of community life Locating power more directly within a symbolic interactionist framework Beyond the Power Mystique not only enables scholars to permeate much of the mystique shrouding power but explicitly viewing power as intersubjective accomplishment the material presented here fosters a research agenda that is highly attentive to the collectively articulated aspects of power

relations Consideration is given to the ways in which power is brought into existence implemented experienced sustained objectified resisted dissipated and reconstituted in actual practice Addressing the full range of associations occurring in all human arenas from small group settings to large scale theaters of operations this volume provides a conceptually viable means of synthesizing so called macro and micro realms of power Prus considers people s definitions of and routings into situations of power as well as the dilemmas they face the strategies they assume and the limitations they encounter as they enter into interchanges with others on both more individualized and collectively coordinated bases and in both long term and more situated instances Encyclopedia of Human Computer Interaction Ghaoui, Claude,2005-12-31 Esta enciclopedia presenta numerosas experiencias y discernimientos de profesionales de todo el mundo sobre discusiones y perspectivas de la la interacci n hombre computadoras *Management Motifs* Scott Grills,Robert Prus,2018-07-24 This book examines management and management related activities as a feature of everyday life Any person or group that attempts to influence or shape the behaviors or experiences of others may be understood as engaging in management activities The study of management involves the study of achieving understanding providing direction and coordinating activities with others across an endless array of humanly engaged terrains Management Motifs provides a research agenda for an interactionist approach to the study of management activities Moving well beyond more organizationally based understandings of managers and management it examines the pragmatic accomplishment of management activities and the generic social processes that accompany them This work addresses diverse issues related to management such as holding and doing office pursuing cooperation developing policy envisioning and advocating for missions establishing teams and generating team identities sustaining team endeavors and managing self By attending to management related concerns as a generic feature of human group life the authors develop and articulate a research framework for the study of managing and management *Symbolic Interactionism: The Basics* Charles Quist-Adade,2019-03-15 This book is a survey of Symbolic Interaction In thirteen short chapters it traces the history the social philosophical roots the founders movers and shakers and evolution of the theory Symbolic Interactionism The Basics takes the reader along the exciting but tortuous journey of the theory and explores both the meta theoretical and mini theoretical roots and branches of the theory Symbolic interactionism or sociological social psychology traces its roots to the works of United States sociologists George Hebert Mead Charles Horton Cooley and Herbert Blumer and a Canadian sociologist Erving Goffman Other influences are Harold Garfinkel s Ethnomethodology and Austrian American Alfred Schutz s study of Phenomenology Symbolic Interactionism Basics explores the philosophical sources of symbolic interactionism including pragmatism social behaviorism and neo Hegelianism The intellectual origins of symbolic interactions can be attributed to the works of William James George Simmel John Dewey Max Weber and George Herbert Mead Mead is believed to be the founder of the theory although he did not publish any academic work on the paradigm The book highlights the works of the intellectual heirs of symbolic interactionism Herbert Blumer Mead s former

student who was instrumental in publishing the lectures his former professor posthumously with the title Symbolic Interactionism Erving Goffman and Robert Park
