Egyptian Revolutions Amal Treacher Kabesh, 2017-03-16 The socio political context of Egypt is full of the affectual burdens of history The revolutions of both 1952 and 2011 proclaimed that the oppressive colonial past had been overthrown decisively So why has the oppression perpetrated by previous regimes been repeated What impact has this had on the lives of ordinary citizens *Egyptian Revolutions* looks at the impact of the current events in Egypt on citizens in relation to matters of belonging identification and repetition It contests the tendency within postcolonial theory to understand these events as resistance to Western imperialism and the positioning of activists as agents of sustainable change Instead it pays close attention to the continuities from the past and the contradictions at work in relation to identification repetition and conflict Combining postcolonial theory with a psychosocial studies framework it explores the complexities of inhabiting a society in a state of conflict and offers a careful analysis of current theories of gender religion and secularism agency resistance and compliance in a society riven with divisions and conflicts

Provocations Cathryn McConaghy, 2006

Textbook *Mourning Become...* Liz Stanley, 2006-10-17 This work demonstrates that much of what we have traditionally understood about concentration camps run by the British during the South African War originates with the testimony solicited from Boer proto nationalist circles Using detailed archival evidence Stanley shows that much of the history of the camps results from a deliberate imposition of post memory a process by which memory shapes and supports a racialized nationalist framework
