Reinventing American Jurisprudence George David Miller, 2021-11-05 In *Reinventing American Jurisprudence* Law through the Lens of Value George David Miller and Laura Brown unfurl an original approach to value and an imaginative landscape in philosophy of law Value essentialism identifies value formations such as a sacred cow and scapegoat tandem and the intensification of oughtness as it approaches sacred zenith values Readers learn how Occam's razor has been responsible for the death of many ideas how the celebrated Other gains nuance as near and remote and where a spectral assessment of probability and necessity leads Analyses of Supreme Court cases grow out in different and exciting directions Buck was not about eugenics but another iteration of the value of efficiency and *Yo Wick* was decided less on law and more on a justice's finding humanity in Chinese laundry mat proprietors *Lochner* involved not an ideological binary but three distinct value schemes Separate but equal was refined as parallelism and exploitative tangents In Brown the Fourteenth Amendment took a significant subjective turn In *Heller* the communitarian position of stopping violence before it began could be contrasted with the individualistic position of waiting until you see the whites of their eyes in your bedroom *Citizens United* was distilled into the question was the First Amendment designed to maximize participation or maximize democracy

Blue Laws and Black Codes Peter Wallenstein, 2013-02-20 Women were once excluded everywhere from the legal profession but by the 1990s the Virginia Supreme Court had three women among its seven justices This is just one example of how law in Virginia has been transformed over the past century as it has across the South and throughout the nation In *Blue Laws and Black Codes* Peter Wallenstein shows that laws were often changed not through legislative action or constitutional amendment but by citizens taking cases to state and federal courtrooms Due largely to court rulings for example stores in Virginia are no longer required by blue laws to close on Sundays Particularly notable was the abolition of segregation laws modified versions of southern states black codes dating back to the era of slavery and the first years after emancipation Virginia's long road to racial equality under the law included the efforts of black civil rights lawyers to end racial discrimination in the public schools the 1960 Richmond sit ins a case against segregated courtrooms and a court challenge to a law that could imprison or exile an interracial couple for their marriage While emphasizing a single state *Blue Laws and Black Codes* is framed in regional and national contexts Regarding blue laws Virginia resembled most American states Regarding racial policy Virginia was distinctly southern Wallenstein shows how people pushed for changes in the laws under which they live love work vote study and shop in Virginia the South and the nation

Incrementalism and Policymaking in the USA Michael T. Hayes, 2023-10-16 This book examines incrementalism as

a policymaking process in the USA It provides an overview of incrementalism as a theoretical concept assesses historical and contemporary attitudes toward it and considers it as a viable alternative to rationality The book argues that incrementalism is both an inevitable and desirable method of policymaking despite seeming ill suited to the current system of highly ideological and polarized political parties It also advocates a return to realism in which policymakers on both the left and right recognize the superiority of incrementalism as well as a new system of partisan incrementalism through which political parties compete by offering distinctive incremental alternatives on major policy issues The book will appeal to scholars and students of American public policy public administration and politics

Symbolism and Power in Central Asia Sally

Cummings,2013-09-13 With the collapse of communism post communist societies scrambled to find meaning to their new independence Central Asia was no exception Events relationships gestures spatial units and objects produced conveyed and interpreted meaning The new power container of the five independent states of Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan would significantly influence this process of signification Post Soviet Central Asia is an intriguing field to examine this transformation a region which did not see an organised independence movement develop prior to Soviet implosion at the centre it provokes questions about how symbolisation begins in the absence of a national will to do so The transformation overnight of Soviet republic into sovereign state provokes questions about how the process of communism turned nationalism could become symbolised and what specific role symbols came to play in these early years of independence Characterized by authoritarianism since 1991 the region s ruling elites have enjoyed disproportionate access to knowledge and to deciding what how and when that knowledge should be applied The first of its kind on Central Asia this book not only widens our understandings of developments in this geopolitically important region but also contributes to broader studies of representation ritual power and identity This book was published as a special issue of Europe Asia Studies

BE IN

CHARGE, IT'S FREE OF CHARGE Dino Georgalas,2005-08-02 Synopsis According to Yogi Berra You can sometimes see a lot

just by looking Even a casual observation of everyday life and current events may well reveal that the state of our nation and indeed the world is increasingly fraught with stress rapidly deteriorating and costly health angst agony and even depression Be In Charge of Yourself and Your Health It s Free of Charge addresses with the utmost if not unprecedented simplicity what concerns and alarms most everybody on the planet maybe even more so in the US Canada and the EU which is Human Health Stress It provides universal appeal accessibility and self empowerment for the general reader while also uniquely providing total independence of all external and or intangible references and or directives Health and stress are practically everybody s prime and urgent concern This is probably an understated understatement Martial the first century AD Roman poet was right on when he quite unequivocally stated Life Is Not Living But Living In Health non est vivere sed vaslere vita est Myriad published recommendations to combat ill health and stress fall mainly in the following categories Medical Scientific Religious Abstract Esoteric Spiritual Fads diets fitness meditation etc Some recommendations may be dogmatic and or intimidating but all operate under the illusion of one size fits all or as culturally and commonly expressed Everybody does it or It happens to everybody This illusion is also hammered in holistically by relentless advertising Most existing HEALTH and STRESS related PUBLICATIONS are BASED ON DOGMA and or intimidation pushed strictly by AUTHOR CREDENTIALS and or FAME and NOTORIETY They also embrace the one size fits all myth or rather oxymoron and promote fads often contradictory As anyone may observe the state of our physical and mental health leaves a lot to be desired to say the least in spite of occasional short term and at times Pyrrhic victories Be In Charge of Yourself and Your Health It s Free of Charge offers a uniquely different and tangible paradigm It contains no dogma be it religious ideological spiritual or other Nor is it abstract moralising or judgmental It merely reminds readers of their uniqueness their inherent and self evident free will power of choice which combined with their innate common sense can uniquely deal with their health and stress concerns This reminder is tangible self evident accessible by most all and anybody can identify with it individually The reader is in the driver s seat not some guru with myriad lists of to do s none of which is individualised The reader alone gets to choose Simply put you do not have to do anything only what you choose to since choice has always been yours is always yours will always be yours and never never anybody else s Furthermore it does not prescribe dictate recommend or promote products diets exercises systems procedures and treatments nor any literature dealing in what to do when and how It establishes with Aristotelian sequential logic and common sense that by Being In Charge Of One s Self stress and the resulting self contradictions and internal conflicts may be neutralised Once In Charge Of One s Self the next logical step is the option to take Charge Of One s Health and validate the ancient Greek principle of Healthy Mind in a Healthy Body This ancient principle is being constantly reconfirmed by medical science Be In Charge of Yourself and Your Health It s Free of Charge first establishes tangibly the absolute uniqueness of each human being while debunking the one size fits all myth It next reminds all of the self evident that all the children of the Big Bang A K A human beings are inherently equipped with the gift

of discrimination and the absolute power of choice free will Once individual uniqueness and the absolute power of choice and its natural consequences are acknowledged and embraced if so chosen the result is inevitably taking charge of one's self Consequently one can take charge of one's health as well while realising that one is the sole chief architect in charge of one's health After all Health Is Not Wealth It Is Everything Perhaps the most interesting aspect of this book is the tangible presentation with which most all readers can identify with It is based on widely available common knowledge information be it historical and or scientific observations available to most if not all as well as basic down to earth common sense and logic with which most everyone can identify with All presented in another way from a fresh paradigm IT fully IDENTIFIES addresses and blends WITH the most significant CONTEMPORARY AND CURRENT EVENTS and concerns both national and international WITH A TOUCH OF HUMOUR HERE AND THERE Another quite exceptional if not unique angle of this book is that it is entirely fact proof and that it will inherently remain current while it keeps on being re enforced almost daily by events findings and trends constantly recorded by all media and for the foreseeable longer range future Be In Charge It's Free of Charge is a natural topic for talk radio and television interviews and talk shows It is also ideal for seminars and speeches to associations clubs etc It can address any audience from business family teenagers to senior citizens to AARP etc The author can personally contribute in spreading the message of the book having extensive experience in public speeches presentations interviews with print radio and TV media multi culturally and internationally and is able to personally illustrate the validity of the message of the book
