University of Nebraska Studies in Language, Literature, and Criticism University of Nebraska (Lincoln campus),1917 **A History of Korean Literature** Peter H. Lee,2003-12-18 This is a comprehensive narrative history of Korean literature It provides a wealth of information for scholars students and lovers of literature Combining both history and criticism the study reflects the latest scholarship and offers a systematic account of the development of all genres Consisting of twenty five chapters it covers twentieth century poetry fiction by women and the literature of North Korea This is a major contribution to the field and a study that will stand for many years as the primary resource for studying Korean literature *The Postsecular Restoration and the Making of Literary Conservatism* Corrinne Harol,2022-12-22 This book reveals a synergy between postsecularity as a critique of emergent liberal secular ideals and practices and the modern literary sphere in which conservative writers feature prominently Corrinne Harol argues boldly yet compellingly that influential literary forms and practices including fiction mental freedom worlding reading narration and historical fiction are in fact derived from these writers responses to secularization Interrogating a series of concepts faith indulgence figuring reading passivity revolution and nostalgia central to secular culture this study also engages with works by Aphra Behn John Dryden Margaret Cavendish and Walter Scott as well as attending to the philosophies of Thomas Hobbes David Hume and Edmund Burke Countering eighteenth century studies current overreliance on the secularization narrative as content and method fact and norm this book models how a postsecular approach can help us to understand this period and secularization itself more fully Blake's Prophetic Workshop G. A. Rosso,1993 While William Blake s *The Four Zoas* may be fascinating to Blake scholars it presents formidable obstacles to even the most ardent Romanticist let alone interested critics or the general reader Blake s *Prophetic Workshop* attempts to clear some of these obstacles by studying the work from a variety of critical perspectives It assumes some familiarity with Blake s prophecies but is cast between the introductory and advanced levels of the two previous books published on the poem Although the major reading strategy is close textual analysis the poem is marked by various cultural and social contexts that need elucidation Chapters alternate between sketching these contexts and traditions and providing detailed readings within these contexts The first chapters give a reception history of the work and set it within the tradition of the eighteenth century long poem namely Thomson s *Seasons* Pope s *An Essay on Man* and Young s *Night Thoughts* texts that Blake critiques as Newtonian substitutions of Miltonic prophecy Chapter three tests these assertions by reading the poem s creation narratives in terms of Anglican Dissenting apologetics The final chapters sift the

cultural contexts that shape Blake's use of biblical typology and scrutinize several continental philosophies of history and how they encroach on The Four Zoas as well as situate the poem in the apocalyptic moment of the 1790s. While a pluralist approach is followed, author George Anthony Rosso Jr. subscribes to a fundamentally historical theory that places The Four Zoas in the broad and eclectic tradition of English poetic prophecy. Aware of recent critiques of the prophetic, Rosso pursues his theory with flexibility and tolerance for other viewpoints. An appendix provides a useful commentary on the relations between the text and certain designs, drawings, and sketches in the manuscript. Its aim is to show that Blake repeats key images in various frames to provide a sense of context and development and that the drawings expose what the narrative represses, often in graphic sexual detail. Rosso presents a Blake who is both deadly serious and disarmingly ironic about the relevance of prophecy in the modern world.

Dryden's Final Poetic Mode Cedric D. Reverand II, 2016-11-11

Two months before he died, Dryden published a collection of verse translations and original poetry, *Fables Ancient and Modern*, the work for which he was most admired throughout the eighteenth and nineteenth centuries. Cedric Reverand argues that *Fables*, which has for the most part escaped modern scrutiny, embodies a purposeful subversive strategy and constitutes a new poetic mode that emerged when the laureate public spokesman for king and country lost his official post and became an outcast, a minority voice. In *Dryden's Final Poetic Mode*, Reverand focuses on Dryden's characteristic concerns: love and war, power and kingship, the heroic code, the Christian ideal, tracing how Dryden assembles informing ideals and yet dissolves them as well. By examining Dryden's treatment of familiar issues, Reverand demonstrates that this final poetic mode is not discontinuous with the earlier poetry; it is a further development, a reevaluation of the principles that sustained the poet throughout his career. *Fables* expresses Dryden's personal experience dealing with a changed and changing world. With the values he cherished crumbling, he is trapped into trying to reconcile the irreconcilable. His book reveals the fragility of various systems of value and the futility of discovering abiding ideals in a universe of perpetual flux, but it also reveals a poet who actively pursues meaning rather than surrendering to despair. It is this attempt to accommodate to a changing, subversive world that Reverand asserts is the impulse behind *Fables* and the central issue of Dryden's life in the 1690s. *Dryden's Final Poetic Mode* will interest students and scholars of seventeenth and eighteenth-century British literature.

Romanticism, Self-Canonization, and the Business of Poetry Michael Gamer, 2017-02-17

This is the first book to examine how Romantic writers transformed poetic collections to reach new audiences. In a series of case studies, Michael Gamer shows Romantic poets to be fundamentally social authors working closely with booksellers, intimately involved in literary production and resolutely concerned with current readers, even as they presented themselves as disinterested artists writing for posterity. Exploding the myth of Romantic poets as naive, unworldly, or unconcerned with the practical aspects of literary production, this study shows them instead to be engaged with intellectual property, profit, and loss, and the power of

reprinting to reshape literary reputation Gamer offers a fresh perspective on how we think about poetic revision placing it between aesthetic and economic registers and foregrounding the centrality of poetic collections rather than individual poems to the construction of literary careers
