Subversive Women:

Subversive Women Saskia Wieringa, 1995-09-04 This anthology of feminist writing demonstrates the complexity and diversity of women's movements worldwide. The book opens with an analysis of women's history as subversion and the methodological aspects of feminist research projects. Individual contributors look at the experience of their own countries and explore feminism as it is defined in the North and the South.

Women and the Nation's Narrative Neloufer De Mel, 2001 This book explores the development of nationalism in Sri Lanka during the past century, particularly within the dominant Sinhala Buddhist and militant Tamil movements. Tracing the ways women from diverse backgrounds have engaged with nationalism, Neloufer de Mel argues that gender is crucial to an understanding of nationalism and vice versa. Traversing both the colonial and postcolonial periods in Sri Lanka's history, the author assesses a range of writers, activists, political figures, and movements almost completely unknown in the West. With her rigorous, historically located analyses, de Mel makes a persuasive case for the connections between figures like actress Annie Boteju and art historian and journalist Anil de Silva, poetry whether written by Jean Arasanayagam or Tamil revolutionary women, and political movements like the LTTE, the JVP, the Mother's Front, and contemporary feminist organizations. Evaluating the colonial period in light of the violence that animates Sri Lanka today, de Mel proposes what Bruce Robbins has termed a lateral cosmopolitanism that will allow coalitions to form and to practice an oppositional politics of peace. In the process, she examines the gendered forms through which the nation and the state both come together and pull apart. The breadth of topics examined here will make this work a valuable resource for South Asianists as well as for scholars in a wide range of fields who choose to consider the ways in which gender inflects their areas of research and teaching.

Helpmates, Harlots, and Heroes Alice Ogden Bellis, In this comprehensive book, the first of its kind, the author shares the work of many feminist biblical scholars who have examined women's stories in the last twenty-five years. These stories are powerful accounts of women in the Old Testament stories that have profoundly affected how women understand themselves. Publisher description.

Exploring the Dirty Side of Women's Health Mavis Kirkham, 2007-01-24 A team of international contributors give new insights into the key issues surrounding women's health, social anthropology, and midwifery. They examine bodies, leakage, and boundaries, illuminating the contradictions and dilemmas in women's healthcare.

Subversive Scribes and the Solomonic Narrative Eric A. Seibert, 2006-06-15 Investigates the Solomonic narrative through the optics of propaganda and specifically subversion. This book explores examples of scribal subversion in 1 Kings 1:11. It examines texts that undermine the legitimacy or the legacy of Solomon and explores the social context in which scribal subversion was not only possible but perhaps necessary.

Subversive Women, 19?? **Kleist's Female Leading Characters and the Subversion of Idealist Discourse** Grant Profant McAllister, 2005 Heinrich von Kleist's problematic relationship with the philosophy and the aesthetics of idealism informs his parodic, rebellious, and destructive oeuvre. This book focuses on this relationship and examines Kleist's female

leading characters and their role as amorphous ciphers for his own subversive aesthetic theory Through parody these characters call into question idealist philosophy regarding truth knowledge and gender and offer a theory of aesthetic representation that replaces traditional binary oppositions with pluralities and nonclosure Nietzsche may have opened the door to postmodernism however Kleist unlocked it with four cunning female voices This is the first book in Kleist scholarship to focus solely on Kleist's female leading figures and their symbolic role as both character and literary theory a theory anticipating Derridean deconstruction

Women's Authorship in Interwar Yugoslavia Jelena Petrović, 2018-10-01 This book highlights the extent to which women were positioned as historical subjects in the process of constructing political social and cultural history in Yugoslavia while simultaneously facing the politics of institutional exclusion and academic ignorance of progressive ideas and emancipatory struggles To this effect the book interprets a series of works written in interwar Yugoslavia by women or about women's position in public space The research corpus is varied including LGBT literature autobiographies travelogues literary correspondence political writings parody bibliographies and dictionaries etc The book argues that women have been programmatically made absent from the so called universal canon of post Yugoslav literature or else negatively valorised or labeled while at the same time women's writing in interwar Yugoslavia reflected articulated and mapped significant social political and cultural issues The book proposes a re reading of the once censored and forgotten texts to counter the politics of exclusion that operates even today in the post Yugoslav space This re reading is carried out in the light of contemporary feminist theories and aims to reveal and emphasise the emancipatory importance of women's authorship In this way Jelena Petrović provides a fresh perspective on the topical issue of the still contested post Yugoslav space

New Feminist Art Criticism Katy Deepwell, 1995 This text reviews feminist art strategies as they emerged in the late 1980s and early 1990s in America and the UK It draws together the views of prominent practitioners critics academics and curators on a broad range of controversial issues The central focus of the book is feminism's engagement with psychoanalysis and post modernism and its aim of deconstructing the borders between art and craft and theory and practice Feminist politics in the art world are also investigated through discussion of the negotiations of feminist curators responses to feminist exhibitions issues surrounding pornography and the censorship of women's work and the role of feminist teaching on fine art and design degree courses The book covers a variety of art work including installation work painting textiles and photography
