Subverting The System Gorbachevs Reform Of The Partys Apparatus 1986 1991 Reprint 2004

Emilie Sanchez

Subverting The System Gorbachevs Reform Of The Partys Apparat 1986 1991 Reprint 2004:

Understanding Russian Politics Stephen White, 2011-03-31 A fresh and compelling interpretation of Russian politics by a leading authority this textbook focuses on political developments in the world's largest country under Putin and Medvedev Using a wealth of primary sources it covers economic social and foreign policy and the system of politics that has developed in recent years Opposing arguments are presented and students are encouraged to reach their own judgements on key events and issues such as privatisation and corruption This textbook tackles timely topics such as gender and inequality issues organised religion the economic crisis and Russia's place in the international community It uses numerous examples to place this powerful and richly endowed country in context with a focus on the place of ordinary people which shows how policy is translated to Russians everyday lives

Why Communism Did Not Collapse Martin K. Dimitrov, 2013-07-31 This volume brings together a distinguished group of scholars working to address the puzzling durability of communist autocracies in Eastern Europe and Asia which are the longest lasting type of non democratic regime to emerge after World War I The volume conceptualizes the communist universe as consisting of the ten regimes in Eastern Europe and Mongolia that eventually collapsed in 1989-91 and the five regimes that survived the fall of the Berlin Wall China Vietnam Laos North Korea and Cuba The essays offer a theoretical argument that emphasizes the importance of institutional adaptations as a foundation of communist resilience In particular the contributors focus on four adaptations of the economy of ideology of the mechanisms for inclusion of potential rivals and of the institutions of vertical and horizontal accountability The volume argues that when regimes are no longer able to implement adaptive change contingent leadership choices and contagion dynamics make collapse more likely

The Strategy of Campaigning Kiron Skinner, Bruce Bueno de Mesquita, Serhiy Kudelia, Condoleezza Rice, 2010-02-05 Explores the political careers of Ronald Reagan and Boris Yeltsin who overcame defeat early in their political careers and rose to the highest elected offices in their respective countries

A Companion to International History 1900 - 2001 Gordon Martel, 2008-04-15 A comprehensive overview of the most important international events movements and controversies of the 20th century Written by distinguished scholars each an authority in their field Explores influential underlying themes such as imperialism nationalism internationalism technological developments and changes in diplomatic methods Addresses a broad range of topics including diplomacy of wartime and peacemaking the cold war era and the new world order the end of European empires the rise of nationalism in the Third World globalization and terrorism Chronological organization makes the volume easily accessible Includes useful guides for further reading and research

Subverting the System Jonathan Harris, 2004 Subverting the System deals with an issue of fundamental importance namely the internal evolution of the regime in the final years of Soviet power In particular the book examines the contradictory approaches taken by Gorbachev in relation to the role and organization of the Communist Party contradictions that effectively paralyzed the party as a functioning political organization and that ultimately provoked a

dynamic that led to the fall of the system in its entirety *Russia and the Soviet Union* John M. Thompson, 2011-05 This lucid account of Russian and Soviet history presents major trends and events from ancient Kievan Rus to Vladimir Putin's presidency of the twenty-first century. Now thoroughly revised and updated, *Russia and the Soviet Union* addresses controversial topics including the impact of the Mongol conquest, the paradoxes of Peter the Great, the inevitability of the 1917 Revolution, the Stalinist terror, and the Gorbachev reform effort. The sixth edition includes a new chapter on Vladimir Putin, additional treatment of social and foreign policy issues, and an updated chapter on post-Soviet Russia and the Yeltsin era. Distinguished by its brevity and amply supplemented with useful maps, illustrations, photos, and suggested readings, this essential text provides balanced coverage of all periods of Russian history and incorporates economic, social, and cultural developments as well as politics and foreign policy *A History Of Russia Volume 2* Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects. He has also brought the history up to date by revising the post-Soviet material, which now covers events from the end of 1991 up to the present day. This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US, Canada, and around the world **2004** Massimo Mastrogregori, 2013-10-10 Annually published since 1930, the *International Bibliography of Historical Sciences (IBOHS)* is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times. The IBOHS is thus currently the only continuous bibliography of its kind covering such a broad period of time, spectrum of subjects, and geographical range. The works are arranged systematically according to period, region, or historical discipline, and alphabetically according to authors' names, or in the case of anonymous works, by the characteristic main title word. The bibliography contains a geographical index and indexes of persons and authors *NewsNet* American Association for the Advancement of Slavic Studies, 2004
