Success With Languages:

Success with Languages Stella Hurd, Linda Murphy, 2005-10-09 Success with Languages is designed to help all students develop the skills they need to become an effective language learner and to make the most of language study. Written by experienced language teachers at the Open University, this book offers undergraduates and postgraduates crucial and practical advice on important areas such as choosing a language and study programme, setting personal goals for language learning and monitoring progress using ICT to support language learning. Each of the ten chapters features a number of exercises in order to help students assess the ways they learn and consider where improvements can be made making the most of the media available and how to use resources effectively. [Success with Foreign Languages](#) Earl W. Stevick, 1989 *Achieving Success in Second Language Acquisition* Betty Lou Leaver, Madeline Ehrman, Boris Shekhtman, 2005-06-02 Publisher Description **Applied Language Learning**, 2017 [The Modern Languages Forum](#), 1928 **The Routledge Handbook of Language Revitalization** Leanne Hinton, Leena Huss, Gerald Roche, 2018-03-05 The Routledge Handbook of Language Revitalization is the first comprehensive overview of the language revitalization movement from the Arctic to the Amazon and across continents. Featuring 47 contributions from a global range of top scholars in the field, the handbook is divided into two parts: the first of which expands on language revitalization issues of theory and practice while the second covers regional perspectives in an effort to globalize and decolonize the field. The collection examines critical issues in language revitalization including language rights, language and well-being, and language policy; language in educational institutions and in the home; new methodologies and venues for language learning; and the roles of documentation, literacies, and the internet. The volume also contains chapters on the kinds of language that are less often researched, such as the revitalization of music of whistled languages and sign languages, and how languages change when they are being revitalized. The Routledge Handbook of Language Revitalization is the ideal resource for graduate students and researchers working in linguistic anthropology and language revitalization and endangerment. **Successful Family Language Policy** Mila Schwartz, Anna Verschik, 2013-12-12 This book presents the forefront of research in the emerging field of family language policy. This is the first volume to explore the link between family language policy practice and management in the light of state and community language policy in more than 20 ethno-linguistic communities worldwide. Contributions by leading scholars from eight countries and three continents offer insights in how family language policy might be interpreted from various theoretical perspectives using innovative methodologies. In particular, the authors present novel data on successful family language practices such as faith-related literacy activities and homework sessions as well as management including prayer choice of bilingual education and links with mainstream and complementary learning which permit the realization of language ideology within three contexts: immigrant families, inter-marriage families, and minority and majority families in conflict-ridden societies. **How to be a More Successful Language Learner** Joan
