The Success and Failure of Picasso John Berger, 1965 Success and Failure of Picasso John Berger, 1992 *The Success and Failure of Picasso with 120 Ills* J. Berger, 1966 **Pablo Picasso** Mary Ann Caws, 2005-09

What is a face really? Its own photo? Its make up? Or is it a face as painted by such or such painter? That which is in front? Inside? Behind? And the rest? Doesn't everyone look at himself in his own particular way? With these words Pablo Picasso described the revolutionary methods of painting and artistic perspective with which he challenged the ways people and the world were defined. His life was a similarly complex prism of people, places and ideologies that spanned most of the twentieth century. Acclaimed scholar Mary Ann Caws provides in *Pablo Picasso* a fresh and concise examination of Picasso's life and art, revisiting the themes that occupied him throughout his life and weaving these themes through his crucial close relationships. Caws embarks on a global journey to retrace the footsteps of Picasso, giving biographical context to his work from *Les Femmes d'Alger* through *Guernica* and analyzing the changes and inconsistencies in his oeuvre over the course of the twentieth century. She examines Picasso's attempts to balance various viewpoints, artistic strategies, lovers and friends, positing the central figures of the Harlequin, the clown and the acrobat in his art as emblematic of his actions. Gertrude Stein, Max Jacob, Apollinaire, Jean Cocteau, Andr  Breton, Salvador Dal , Paul Eluard and Roland Penrose all make appearances in these pages as Caws examines their influence on Picasso. Caws also delves into Picasso's tumultuous relationships with his lovers, Dora Maar, Fran oise Gilot and Jacqueline Roque, to understand their effects on his art. A compelling and original portrait, *Pablo Picasso* offers a lively exploration into the personal networks that both challenged and sustained Picasso.

Photography and Failure Kris Belden-Adams, 2020-08-06

Throughout photography's history, failure has played an essential, recurring part in the development and perceived value of this medium. Exploring a range of failures, individual and institutional, technological and historiographical, *Photography and Failure* asks what it means to fail and considers how this narrative of failure has shaped our understanding of photography. From the trial and error beginnings of photochemistry to poor business decisions influenced by fickle public opinion and taste, the founders and early practitioners of photography frequently faced bankruptcy and ignominy. Alongside these individual failures, this collection of essays examines the role of museums in rediscovering, preserving and presenting photographs within institutions, as well as technological limitations such as the problematic panoramic lens or the digital archival failures of Snapchat. Moving beyond the physical photograph and these processes, the book also investigates the limitations of photographs themselves as purveyors of truth, time, space, documentary realism and social change, whether these failures are used to effect or not. Finally, the book probes the historiographical failures affecting the discipline, drawing on key debates such as the perceived over-emphasis on European and American photography and the place of photography theory in contemporary art practice. Blurring the boundaries between traditional binaries of art and non-art, photography, amateur and professional practice and individual and corporate
