Successes Failures Elgar:

Successes and Failures in Regulating and Deregulating Utilities Colin Robinson, Institute of Economic Affairs (Great Britain), London Business School, 2004-01-01 This book is the latest annual review of utility regulation and deregulation published in association with the Institute of Economic Affairs and the London Business School **Grand Successes and Failures in IT: Public and Private Sectors** Yogesh K. Dwivedi, Helle Zinner Henriksen, David Wastell, Rahul De', 2013-06-22 This book constitutes the refereed proceedings of the IFIP WG 8.6 International Working Conference on Transfer and Diffusion of IT TDIT 2013 held in Bangalore India in June 2013 The 35 revised full papers presented together with an invited paper 12 short papers and 3 poster papers were carefully reviewed and selected from 65 submissions The full papers are organized in the following topical sections IS success and failure studies of IT adoption software development IT in the public sector and theory and methods **Understanding Policy Success** Allen McConnell, 2010-08-11 Success and failure are key to any consideration of public policy but there have been remarkably few attempts to assess systematically the various dimensions and complex nature of policy success This important new text fills the gap by developing a systematic framework and offering an entirely new way of introducing students to policy analysis **The Regulation of Medical Products** Penny Gleeson, 2024-12-31 This book develops a theoretical framework for examining and assessing the regulatory arrangements for medical products Since the first half of the 20th century the regulation of pharmaceuticals medical devices and more recently biologicals have been controlled in many jurisdictions by specific regulatory regimes and agencies Their regulatory mandates are similar to ensure the quality safety and efficacy of medical products This book provides a timely and relevant assessment of the complexities of medical regulatory regimes by drawing on a particular theory of political legitimacy In this respect the book adopts a dialogic approach according to which a shared set of normative beliefs and values are formulated as a theoretical tool to identify deficiencies in the regulatory arrangements for medical products Drawing on several Australian cases studies characterised by divergent normative perspectives the book develops its dialogic approach in order to challenge the usual legitimization of regulatory regimes from the perspective of science alone Specifically it maintains that such regimes need to embrace a normative pluralism that admits a diversity of types and sources of knowledge This evaluation of the increasingly influential domain of medical regulation will appeal to a range of scholars and practitioners working in law public health politics and science and technology studies **Which Factors Determine the Success or Failure of Startup Companies? A Startup Ecosystem Analysis of Hungary, Germany and the US** Christoph Kotsch, 2017-07-25 As more and more startup companies are founded every year worldwide building up one's own business does not get easier Since 9 out of 10 startups fail future entrepreneurs are well advised to take a look at potential reasons for failure and success Learning from others' mistakes and studying success stories can improve their own performance and help to avoid critical errors The academic paper at hand will provide valuable insights for entrepreneurs It not only states the

most important terms concerning startups but also lists the most important factors for a startup company's success according to literature review Delineating both internal and external factors this thesis not only delivers a synoptic view of potential challenges inside a startup as well as in its ecosystem but also juxtaposes these influences in opposition The second part of this paper analyzes a series of interviews with twelve startup founders from three different regions the province of North Rhine Westphalia in Germany Budapest in Hungary and the state of California in the US Their views and experiences will be summarized and put into the context of their respective startup ecosystem

Does Rising Landlessness Signal Success Or Failure for Vietnam's Agrarian Transition? Martin Ravallion, Dominique Van de Walle, 2006 In the wake of reforms to establish a free market in land use rights Vietnam is experiencing a pronounced rise in rural landlessness To some observers this is a harmless by product of a more efficient economy while to others it signals the return of the pre socialist class structure with the rural landless at the bottom of the economic ladder The authors theoretical model suggests that removing restrictions on land markets will increase landlessness among the poor but that there will be both gainers and losers with uncertain impacts on aggregate poverty Empirically they find that landlessness is less likely for the poor and that the observed rise in landlessness is poverty reducing on balance However there are marked regional differences notably between the north and the south World Bank web site

Policy Learning and Policy Failure Claire A. Dunlop, 2020-01-15 First published as a special issue of Policy Politics this updated volume explores policy failures and the valuable opportunities for learning that they offer Policy successes and failures offer important lessons for public officials but often they do not learn from these experiences The studies in this volume investigate this broken link The book defines policy learning and failure and organises the main studies in these fields along the key dimensions of processes products and analytical levels Drawing together a range of experts in the field the volume sketches a research agenda linking policy scholars with policy practice

National Security, Public Health: Exceptions to Human Rights? Myriam Feinberg, Laura Niada-Avshalom, Brigit Toebes, 2017-10-02 The book deals with the complicated relationships between national security and human rights and between public health and human rights Its premise is the fact that national security and public health are both included in human rights instruments as exceptions to the human rights therein sanctioned yet they can arguably be considered as human rights themselves and be equally valuable The book therefore asks to what extent the protection of the individual could or should be overridden to enable the protection of the national security or public health of the general public Both practice and case law have shown that human rights risk being set aside when they clash with the protection of national security or public health Through theoretical analysis and practical examples the book addresses the conflicts that arise when the concepts of national security and public health are used and abused and other rights including freedom of speech procedural freedoms individual health are violated as a consequence It provides many interesting findings on the values that states are ready to protect and forego to ensure their safety which can contribute to the ongoing debate on the protection of

human rights This book was originally published as a special issue of The International Journal of Human Rights **The State as an Actor in Religion Policy** Maria Grazia Martino, 2014-08-28 Maria Grazia Martino and her contributing authors highlight the different solutions found by European countries with different ecclesiastical law systems different distributions of Christian denominations and different percentages of Muslim immigrants Germany Switzerland France Sweden Italy and Greece Churches and religious communities are actors from civil society The state sets the framework for their activities first and foremost by formal legal acts in ecclesiastical law Besides this field of law religion policy has increasingly developed into a policy field of its own Which incentives and steering tools used by the state cause which kind of behavior which role in society and which self understanding among churches and religious communities This edited volume answers these questions

Encyclopedia of Government and Politics Mary Hawkesworth, Maurice Kogan, 2013-11-07 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers
