Sufism A Short Introduction:

Sufism William C. Chittick,2000 A compelling insight into the origins context and key themes of the Sufi movement by leading scholar William C Chittick The text covers such diverse topics as the relationship between Sufism and Islam the spiritual properties of music and dance and the beliefs and key writings of the Sufi tradition *The Cambridge Companion to Sufism* Lloyd Ridgeon,2015 This book traces the evolution of Sufism from the formative period to the present *The Nature of the Sufi Path* Anab Whitehouse,2018-11-06 The material in *The Nature of the Sufi Path* consists of 70 commentaries on a book entitled *Sufism A Short Introduction* by Professor William C Chittick Many if not most of the paragraphs that comprise the 163 pages preface plus text of Professor Chittick's book contain problems errors misleading statements and or incorrect understandings concerning Islam in general and the Sufi path in particular This is both surprising and disturbing since the author is someone who apparently enjoys a considerable reputation in North America and perhaps elsewhere in the world as an expert on and scholar of the Sufi mystical tradition I do not claim that what I say in this book is a definitive exhaustive incapable of being improved upon treatment of the Sufi path Rather my hope is that the present book might move a person closer to the truth concerning the nature of that path than Professor Chittick's aforementioned introduction to Sufism does and as such would represent an improvement over his work **Sufism** Ahmet T. Karamustafa,2007-04-12 This book is a comprehensive historical overview of the formative period of Sufism the major mystical tradition in Islam from the ninth to the twelfth century CE Based on a fresh reading of the primary sources and integrating the findings of recent scholarship on the subject the author presents a unified narrative of Sufism's historical development within an innovative analytical framework Karamustafa gives a new account of the emergence of mystical currents in Islam during the ninth century and traces the rapid spread of Iraq based Sufism to other regions of the Islamic world and its fusion with indigenous mystical movements elsewhere most notably the Malr cultural context Sufism Nile Green,2012-02-20 Since their beginnings in the ninth century the shrines brotherhoods and doctrines of the Sufis held vast influence in almost every corner of the Muslim world Offering the first truly global account of the history of Sufism this illuminating book traces the gradual spread and influence of Sufi Islam through the Middle East Asia Africa and ultimately into Europe and the United States An ideal introduction to Sufism requiring no background knowledge of Islamic history or thought Offers the first history of Sufism as a global phenomenon exploring its movement and adaptation from the Middle East through Asia and Africa to Europe and the United States of America Covers the entire historical period of Sufism from its ninth century origins to the end of the twentieth century Devotes equal coverage to the political cultural and social dimensions of Sufism as it does to its theology and ritual Dismantles the stereotypes of Sufis as otherworldly mystics by anchoring Sufi Muslims in the real lives of their communities Features the most up to date research on Sufism available The A to Z of Sufism John Renard,2009-08-17 With more than 3 000 entries and cross references on the history main
