produced by both the interviewer and the participant in research about sex By attending to the complex dynamics of the research interview this book examines the historic and contemporary relationship between sex work race coloniality sexuality masculinity femininity whorephobia and discourses of disease and contagion It draws on both empirical interview data and Huysamen s entries in her research journal to offer a unique approach to building critical reflexivity into every phase of the research process The critical reflexive approach uses an assemblage of poststructuralist and psychoanalytic theories and practices which together provide tools to interrogate how interview dynamics facilitate shape and restrain the meaning that is produced within the interview This book will be a valuable resource for anyone interested in researching sex work from intersectional and feminist decolonial perspectives as it probes critical questions surrounding how men make meaning of paying for sex their motivations for doing so and how they negotiate their identities in relation to this stigmatised practice It provides a unique offering to researchers working on sexual secret and stigmatised topics providing them with a specific set of tools and resources to incorporate reflexivity into their own sex research Encouraging the reader to look widely to draw on an array of theories and frameworks across disciplines this is fascinating reading for students and researchers in critical psychology research methods and the social sciences

The Consummate Virgin Jodi McAlister,2020-08-25 This book is a study of female virginity loss and its representations in popular Anglophone literatures It explores dominant cultural narratives around what makes a good female virginity loss experience by examining two key forms of popular literature autobiographical virginity loss stories and popular romance fiction In particular this book focuses on how female sexual desire and romantic love have become entangled in the contemporary cultural imagination leading to the emergence of a dominant paradigm which dictates that for women sexual desire and love are and should be intrinsically linked together something which has greatly affected cultural scripts for virginity loss This book examines the ways in which this paradigm has been negotiated upheld subverted and resisted in depictions of virginity loss in popular literatures unpacking the romanticisation of the idea of the right one and the right time

Same Sex Intimacies Catherine Donovan,Brian Heaphy,Jeffrey Weeks,2003-09-02 Our families are increasingly a matter of choice and the choices are widening all the time This is particularly true of the non heterosexual world where the last ten years have seen a popular acceptance of same sex partnerships and to a lesser extent of same sex parenting Based on extensive interviews with people in a variety of non traditional relationships this fascinating new book argues that these developments in the non heterosexual world are closely linked to wider changes in the meaning of family in society at large and that each can cast light on the other Same Sex Intimacies gives vivid accounts of the different ways non heterosexual

people have been able to create meaningful intimate relationships for themselves and highlights the role of individual agency and collective endeavour in forging these roles as friends partners parents and as members of communities This topical book will provide compelling reading for students of the family sexuality and lesbian and gay studies **The Secret Lives of Girls** Sharon Lamb, 2002-03 From playground games of chase and kiss to rough and tumble soccer games from slumber party stripteases to romantic fantasies behind closed doors author Sharon Lamb coaxes out girls true stories with uncommon sensitivity and focus The result of more than 125 fascinating interviews with pre teens teenagers and adult women The Secret Lives of Girls reveals the ways that girls use their minds and bodies for private sexual play mischief and hidden aggression To truly understand what little girls are made of Lamb suggests we must listen not only to what they say to us but also to what they don't say taking into account their hidden selves and the lives that we adults don't see Yes girls are known to be good but they manage to act out in decidedly ungirlish ways and despite many parents fears be the better for it What's most remarkable about Lamb's conclusions is that we needn't join the chorus of voices deploring a girl poisoning culture for damaging our daughters Instead Lamb finds reason to celebrate girls resilience in the face of pressures to conform and she does it by l
