Tense Commandments Pietro S. Nivola, 1996-02-29 During the past decade dozens of large cities lost population as jobs and people kept moving to the suburbs Despite widespread urban revitalization and renewal one fact remains unmistakable when choosing where to live and work Americans prefer the suburbs to the cities Many underlying causes of the urban predicament are familiar disproportionate poverty stiff city tax rates and certain unsatisfactory municipal services most notably public schools Less recognized is the distinct possibility that sometimes the regulatory policies of the federal government the rules and rulings imposed by its judges bureaucrats and lawmakers further disadvantage the cities ultimately burdening their ability to attract residents and businesses In *Tense Commandments* Pietro S Nivola encourages renewed reflection on the suitable balance between national and local domains He examines an array of directive or supervisory methods by which federal policymakers narrow local autonomy and complicate the work urban governments are supposed to do Urban taxpayers finance many costly projects that are prescribed by federal law A handful of national rules bore down on local governments before 1965 Today these governments labor under hundreds of so called unfunded mandates Federal aid to large cities has lagged behind a profusion of mandated expenditures at times straining municipal budgets Apart from their fiscal impacts Nivola argues various federal prescriptions impinge on local administration of routine services tying the hands of managers and complicating city improvements Nivola includes case studies of six cities Baltimore Philadelphia New York Chicago San Francisco and Los Angeles He describes the politics of paternalism the political pressures that federal regulations place on governance Then he offers comparisons with various political systems abroad including Germany the U K France and Italy As the nation and its cities brace f *Tense Commandments* Pietro S. Nivola, 2002-08-21 Despite widespread urban revitalization and renewal Americans still prefer the suburbs to the cities While many of the underlying causes of the urban predicament are familiar there is also the less recognized possibility that regulatory policies of the federal government disadvantage the cities and ultimately burden their ability to attract residents and businesses This book encourages renewed reflection on the suitable balance between national and local domains

Rae, 2008-10-01 How did neighborhood groceries parish halls factories and even saloons contribute more to urban vitality than did the fiscal might of postwar urban renewal With a novelist s eye for telling detail Douglas Rae depicts the features that contributed most to city life in the early urbanist decades of the twentieth century Rae s subject is New Haven Connecticut but the lessons he draws apply to many

American cities City Urbanism and Its End begins with a richly textured portrait of New Haven in the early twentieth century a period of centralized manufacturing civic vitality and mixed use neighborhoods As social and economic conditions changed the city confronted its end of urbanism first during the Depression and then very aggressively during the mayoral reign of Richard C Lee 1954 70 when New Haven led the nation in urban renewal spending But government spending has repeatedly failed to restore urban vitality Rae argues that strategies for the urban future should focus on nurturing the unplanned civic engagements that make mixed use city life so appealing and so civilized Cities need not reach their old peaks of population or look like thriving suburbs to be once again splendid places for human beings to live and work

City Power Richard Schragger, 2016-09-01 Reigning theories of urban power suggest that in a world dominated by footloose transnational capital cities have little capacity to effect social change In *City Power* Richard C Schragger challenges the existing assumptions arguing that cities can govern but only if we let them In the past decade city leaders across the country have raised the minimum wage expanded social services and engaged in social welfare redistribution These cities have not suffered capital flight In fact many are experiencing an economic renaissance Schragger argues that city policies are not limited by the demands of mobile capital but instead by constitutional restraints serving the interests of state and federal officials Maintaining weak cities is a political choice In this new era of global capital the power of cities is more relevant to citizen well being than ever before A dynamic vision of city politics for our new urban age *City Power* reveals how cities can govern despite these constitutional limits and why we should want them to

the Municipal Level Sandra Breux, Jérôme Couture, 2018-07-02 In Canada the quality of municipal democracy has been
questioned due to three crucial factors First voter turnout tends to be significantly lower for municipal elections than it is for
other levels of government Second the re election rate of incumbent candidates is higher compared to provincial territorial
and federal elections Third corruption and other scandals have tarnished the image of local democracy Are cities sufficiently
capable of responding to crises and representing the interests of their residents Accountability and Responsiveness at the
Municipal Level addresses these issues through qualitative and quantitative analysis focusing on some of the most important
characteristics of the Canadian municipal scene including the contexts of partisanship and non partisanship the careers and
daily work of municipal officials and multilevel governance This volume also assists directly in the collection and
dissemination of data about cities as there is currently no centralized system for capturing and organizing electoral statistics
at the municipal level Municipal democracy in Canada suffers from a representation deficit Accountability and
Responsiveness at the Municipal Level is an important first step in building high quality comparative information on the
politics of Canada s cities
