Tent Of Blue:

The Arapaho Alfred Louis Kroeber, 1902 **Blue** Malkit Shoshan, 2022-09-19 The book is part of FAST's ongoing activism research design and advocacy work. It builds on earlier presentations including the exhibition BLUE Architecture of UN Peacekeeping Missions for the Dutch Pavilion of the 15th Venice Architecture Biennale. At the intersection of architecture, urban planning, international relations, and activism, BLUE Architecture of UN Peacekeeping Missions seeks not only to change UN missions but also to open up and expand the operative realm of architecture. It combines research and projects involving policymakers, military engineers and officers, anthropologists, local inhabitants, activists, rebels, diplomats, and ministers, architects, and planners. BLUE offers examples of how entrenched institutional bureaucracies can be confronted by using more inclusive models of engagement, and it shows how designs rooted in local cultures and empowerment can address a history of violence. *MacRae's Blue Book and Hendricks' Commercial Register*, 1927 *The Bee Hive*, 1928 **The**

Ditches of Nevada City Dom Lindars, 2023-04-07 This book tells the history of Nevada City, California, through the eyes of the men that built it. For its first 100 years, everything in Nevada City revolved around gold. But this is not another book about finding gold. To get gold, you needed water to pan for it, to wash it in a sluice, to blast away a hillside with an immense water cannon, or to turn the water wheel of a quartz ore stamp mill. This book instead asks: How did they get the water? It reveals the engineering marvels that brought water to Nevada City's dry hills from tens of miles away. But what if all the water in every ravine, creek, and valley around Nevada City was controlled by just three men? Well, for three decades, every miner, farmer, or business could only buy water from the powerful South Yuba Canal Company. What would happen if you got into an argument with them? Or couldn't afford to pay their water bill? Or even dared to compete with them? The book traces the ingenuity and hard work of the town's miners and ditch builders, highlighting in detail the history and origins of various local neighborhoods, including Nevada City itself, Hirschman's Pond, Sugar Loaf Mountain, Deer Creek, Scotts Flat, Manzanita Diggings, Gold Flat, and various mining camps along Washington Ridge. This vivid portrayal follows the area's evolution from the chaos of thousands of miners scratching out a living in clusters of muddy tents to a genteel town with hotels, stores, banks, theaters, and libraries. What began as a search to uncover a sprawling network of old ditches turned into a collection of never-before-told stories of the gold miners, the ruthless and greedy ditch company, and the rivals that it crushed. The domineering ditch company later enabled the next generation of monopoly to provide electrical power. The story of PG&E also started in Nevada City. This, in turn, led to the now more forward-looking stewardship of the Nevada Irrigation District. The unique format of this book blends beautiful archival images with more than 35 in-depth biographies of key figures in Nevada City. This 884-page hardcover book includes over 600 photos and illustrations, including 200 historic photographs and 75 hand-crafted maps based on modern lidar technology that reveal the locations of the old mining ditches, flumes, mines, and tunnels.
