Teoría Transcultural Del Arte:

Teoría transcultural del arte Adolfo Colombres,2005 El autor pretende elaborar una teoría transdisciplinaria del arte desde la periferia considerando que la estética occidental no ha confrontado sus conceptos y modelos con los de otros pueblos y ha preferido imponerlos como un discurso único que no ha servido generalmente para comprender la producción simbólica ajena sino para oscurecerla para borrar o devaluar los sentidos que los otros habrían construido a lo largo de una historia a menudo milenaria

Para una teoría del arte en Historia y estilo de Jorge Mañach Yaneidys Arencibia Coloma,2018-05-15 Para una teoría del arte en Historia y estilo expone la contribución de Jorge Mañach 1898 1961 a la teoría del arte cubano mediante el examen de Historia y estilo 1944 contenido de varios textos fundamentales y por medio del empleo de conceptos de análisis como electivismo larga duración y teoría de la circunstancialidad histórica del estilo en virtud de precisar el método empleado por Mañach la concepción historiográfica que respalda su propuesta y el empleo del ensayo como soporte textual

An Anthropology of Making in Santa Clara del Cobre Michele Avis Feder-Nadoff,2024-05-27 This book introduced with a Foreword by Tim Ingold offers a nuanced reflection on the meaning of making and artisan agency demonstrating how copper smithing produces not only objects but also lives worlds meanings and social transformation Through long term ethnography grounded in apprenticeship to master coppersmith Jesús Pérez Ornelas Feder-Nadoff's intimate description of communal and artisanal life in Santa Clara del Cobre Michoacán México provides a critical reappraisal of aesthetics and compelling ways to think about how aura and agency are produced By mapping flows and frictions between persons places and things this study closes the gap between economic and socio political analysis of craft on the one hand and aesthetic material and phenomenological studies of making on the other Although craft historically plays a prominent national even ideological role in Mexico as in many countries most artisans ironically remain absent often living in marginalized precarious circumstances By tracing the cycles of life death and afterlife of these maker protagonists their bodies of knowledge skilled performances and objects this poetic monograph testifies to their presence

The Study of Photography in Latin America Nathaniel Gardner,2025-06-17 In this book Nathaniel Gardner provides an insider's perspective to the study of photography in Latin America He begins with a carefully structured introduction that lays out his unique methodology for the book which features over eighty photographs and the insights from sixteen prominent Latin American photography scholars and historians including Boris Kossoy John Mraz and Ana Mauad The work reflects the advances and developments of the study of photography throughout Latin America with certain emphasis on Brazil and Mexico The author further underlines the role of important institutions and builds context by discussing influential theories and key texts that currently guide the discipline The Study of Photography in Latin America is critical to all who want to expand their current knowledge of the subject and engage more robustly with its experts

Creating Inclusive Knowledges Christopher C. Sonn,Alison M. Baker,2019-07-23

There has been a growing interest in the role of arts and cultural practice in tackling perennial forms of social exclusion marginalization and oppression Researchers and educators from different disciplines have been collaborating with community based agencies and community groups to forge new ways to challenge these forms of exclusion This volume discusses how various social actors work in interdisciplinary and cross institutional ways to push an agenda that privileges those individuals and groups who experience and live at the front line of social inequality discrimination racism and oppression For instance what new understandings are generated through creative interdisciplinary action oriented work and the implications for social action and transformation How are community pedagogies constructed and communicated through arts based research contemporary and innovative mediums such as creative performances arts technologies mixed cultural practices and social media and networking This collection of articles blurs the lines between cultural practice and knowledge production with the process and products coming in the forms of theories creative methodologies and a range of arts Together these act as powerful pedagogical tools for engaging in social justice and transformative work The contributions further highlight the multifaceted and diverse ways of creating and disseminating knowledge and the attempts to decenter text based ways of communicating in hopes of sharing collaborative knowledge beyond the academy and engaging the public This volume was originally published as a special issue of the International Journal of Inclusive Education

The Routledge Companion to Design Research Paul A. Rodgers, Joyce Yee, 2023-07-31 This new edition of The Routledge Companion to Design Research offers an updated comprehensive examination of design research celebrating a plurality of voices and range of conceptual methodological technological and theoretical approaches evident in contemporary design research This volume comprises thirty eight original and high quality design research chapters from contributors around the world with offerings from the vast array of disciplines in and around modern design praxis including areas such as industrial and product design visual communication interaction design fashion design service design engineering and architecture The Companion is divided into four distinct sections with chapters that examine the nature and process of design research the purpose of design research and how one might embark on design research They also explore how leading design researchers conduct their design research through formulating and asking questions in novel ways and the creative methods and tools they use to collect and analyse data The Companion also includes a number of case studies that illustrate how one might best communicate and disseminate design research through contributions that offer techniques for writing and publicising research The Routledge Companion to Design Research has a wide appeal to researchers and educators in design and design related disciplines such as engineering business marketing and computing and will make an invaluable contribution to state of the art design research at postgraduate doctoral and post doctoral levels and teaching across a wide range of different disciplines

The SAGE Handbook of Intellectual Property Matthew David, Debora Halbert, 2014-11-18 This Handbook brings together scholars from around the world in addressing the global significance of controversies over and alternatives to

intellectual property IP today It brings together over fifty of the leading authors in this field across the spectrum of academic disciplines from law economics geography sociology politics and anthropology This volume addresses the full spectrum of IP issues including copyright patent trademarks and trade secrets as well as parallel rights and novel applications In addition to addressing the role of IP in an increasingly information based and globalized economy and culture it also challenges the utility and viability of IP today and addresses a range of alternative futures
