Terminus And Other Plays:

Terminus and Other Plays Daniel Keene, 2003 The plays in this major selection of Keene's work represent a cross section of his concerns and styles Existing far outside the accepted tropes of Australian theater writing his work is a striking example of the possibilities open to a questioning mind driven towards the troubled edges of experience Plays Drama Digital Humanities and the Lost Drama of Early Modern England Matthew Steggle, 2016-04-22 This book establishes new information about the likely content of ten lost plays from the period 1580-1642 These plays authors include Nashe Heywood and Dekker and the plays themselves connect in direct ways to some of the most canonical dramas of English literature including Hamlet King Lear The Changeling and The Duchess of Malfi The lost plays in question are Terminus Richard the Confessor 1593 Cutlack 1594 Bellendon 1594 Truth's Supplication to Candlelight 1600 Albere Galles 1602 Henry the Una c 1619 The Angel King 1624 The Duchess of Fernandina c 1630 42 and The Cardinal's Conspiracy bef 1639 From this list of bare titles it is argued can be reconstructed comedies tragedies and histories whose leading characters included a saint a robber a Medici duchess an impotent king at least one pope and an angel In each case newly available digital research resources make it possible to interrogate the title and to identify the play's subject matter analogues and likely genre But these concrete examples raise wider theoretical problems What is a lost play What can and cannot be said about objects in this problematic category Known lost plays from the early modern commercial theatre outnumber extant plays from that theatre but how in practice can one investigate them This book offers an innovative theoretical and practical frame for such work putting digital humanities into action in the emerging field of lost play studies **Bacchae and Other Plays** Euripides, 2009 Collected here for the first time in the series are three major plays by Euripides Bacchae translated by Reginald Gibbons and Charles Segal a powerful examination of the horror and beauty of Dionysiac ecstasy Herakles translated by Tom Sleight and Christian Wolff a violent dramatization of the madness and exile of one of the most celebrated mythical figures and The Phoenician Women translated by Peter Burian and Brian Swamm a disturbing interpretation of the fate of the House of Laios following the tragic fall of Oedipus These three tragedies were originally available as single volumes This volume retains the informative introductions and explanatory notes of the original editions and adds a single combined glossary and Greek line numbers A Critical Edition of The Play of the Wether John Heywood, 2019-03-26 Published in 1987 The Play of the Wether is an English interlude or morality play from the early Tudor period represents the Roman deity Jupiter on earth asking mortals to make cases for their preferred weather following heavenly dissension among the gods It is the first published play to nominate The Vice on its title page **The Duchess of Malfi and Other Plays** John Webster, 2009-03-26 This volume offers John Webster's two great Jacobean tragedies The White Devil and The Duchess of Malfi together with his brilliant tragicomedy The Devil's Law Case and the comedy written with William Rowley A Cure for a Cuckold All four plays display the provocative intelligence of a profoundly original playwright A critical introduction defends

Webster against charges of over indulgence in violence and explores his sophisticated staging and scenic forms **Abiotic Stress in Plants** Shah Fahad, Shah Saud, Yajun Chen, Chao Wu, Depeng Wang, 2021-07-21 Environmental insults such as extremes of temperature extremes of water status and deteriorating soil conditions pose major threats to agriculture and food security Employing contemporary tools and techniques from all branches of science attempts are being made worldwide to understand how plants respond to abiotic stresses with the aim to manipulate plant performance that is better suited to withstand these stresses This book searches for possible answers to several basic questions related to plant responses towards abiotic stresses Synthesizing developments in plant stress biology the book offers strategies that can be used in breeding including genomic molecular physiological and biotechnological approaches that have the potential to develop resilient plants and improve crop productivity worldwide *Playwriting Playgoers in Shakespeare's Theater* Matteo A. Pangallo, 2017-08-02 Using a range of familiar and lesser known print and manuscript plays as well as literary accounts and documentary evidence *Playwriting Playgoers in Shakespeare's Theater* shows how these playgoers wrote and revised to address what they assumed to be the needs of actors readers and the Master of the Revels how they understood playhouse materials and practices and how they crafted poetry for theatrical effects The book also situates them in the context of the period's concepts of and attitudes toward playgoers participation in the activity of playmaking Publisher description
