**The Sino-Soviet Dispute** Alfred D. Low,1976 Provides an analysis of the conflict between the Soviet Union and the People s Republic of China focusing on the polemics Attempts to trace and analyze Soviet and Chinese policies toward each other on the basis of available documents and general evidence China, an Analytical Survey of Literature United States. Department of the Army,1978 Sino-Soviet Dialogue on the Problem of War S. Yin,2012-12-06 The author has spent upwards of ten years in working on this book His objective is to clarify the military aspect of the Moscow Peking dialogue which has not yet received its deserved treatment The apogee of that dialogue seems to have been passed toward the end of the rule of Khrushchev Yet the Vietnam war spawns fresh contention Our cover age will span the development from 1956 to the present The beginning of the dispute with regard to the origins of war in general is taken up in the first two chapters The next three chapters discuss the several types of war with the frame of reference set in what now appears to be a quondam era But the principle differences between the disputants are just as outstanding today as they were then The penultimate chapter is somewhat wide in scope in order to deal with the larger and more intensely bitter polemics evolving after Khrushchev left office There have been many new and startling views held by both sides since then views splitting them poles apart Ominously at issue now is the question of Sino Soviet peaceful coexistence Our work obviously cannot wait until that question is answered to be finished The final chapter concludes our study To write of subjects as dynamic as this one is a challenge because they are current affairs Due to the swift change of events no sooner is our typescript put to press than it needs a revision **Deng Xiaoping and China's Foreign Policy** Ronald Keith,2017-11-03 Deng Xiaoping is widely acknowledged as the principal architect of China s economic reforms but how far was he also responsible for shaping China s foreign policy which emphasized peace and development This book explores Deng s foreign policy and shows how he established basic principles for China to have a foreign policy which supported economic development which stressed harmony in the world rather than hegemony and which avoided conflict and nurtured a peaceful approach The book outlines how Deng worked to normalize relations with both the United States and the Soviet Union how he was disappointed by the lack of reciprocation by the United States where relations are still portrayed in terms of the China threat and how the principles established by Deng continue to be adhered to **USSR, Analytical Survey of Literature** United States. China's Leaders David Shambaugh, 2021-06-25 Since the founding of the People's Republic of China over 70 years ago, five paramount leaders have shaped the fates and fortunes of the nation and the ruling Chinese Communist Party: Mao Zedong, Deng Xiaoping, Jiang Zemin, Hu Jintao, and Xi Jinping. Under their leaderships, China has undergone an extraordinary transformation from an undeveloped and insular country to a comprehensive world power. In this definitive study, renowned Sinologist David Shambaugh offers a refreshing account of China's dramatic post-revolutionary history through the prism of those who ruled it. Exploring the persona, formative socialization, psychology, and professional experiences of each leader, Shambaugh shows how their differing leadership styles and tactics of rule shaped China domestically and internationally. Mao was a populist tyrant, Deng a pragmatic Leninist, Jiang a bureaucratic politician, Hu a technocratic apparatchik, and Xi a modern emperor. Covering the full scope of these leaders' personalities and power, this is an illuminating guide to China's modern history and understanding how China has become the superpower of today. Also available as an audiobook.

The Origins of the Cultural Revolution Roderick MacFarquhar, 1983 The second volume in a trilogy which examines the politics, economics, culture, and international relations of China from the mid 1950s to the mid 1960s, this volume tells the story of the Great Leap Forward, Mao's utopian attempt to propel China economically and socially into the twenty-first century by mobilizing his nation's greatest asset: its disciplined manpower. The effort produced economic disaster and political dissension and helped to precipitate the Sino-Soviet split. Today's leaders point to it as the beginning of two decades of national trauma which ended only after the death of Mao and the purge of the Gang of Four. Those leaders have recently authorized the release of a mass of new documentation in the form of political reminiscences, economic statistics, and leaders' speeches. This volume is the first scholarly work to use the new material comprehensively, weaving it into the narrative along with the contemporary record and the revelations published in Red Guard newspapers during the cultural revolution. The result is the most detailed account and analysis to date of what went wrong and why.

strategic partnership in 1996 both nations declared that they would further develop military cooperation in various fields Tsai examines the course of this military cooperation to reveal the nature of the military ties with the hopes of determining whether these two traditional adversaries have put aside historical legacies and mutual mistrust to create a full fledged military partnership After analyzing the motives and concerns of both powers Tsai concludes that while progress has been made in reducing military tensions in border regions the level of trust has not increased substantially The nature of these ties remains extremely fragile Among Western analysts there has been concern that a closer partnership might adversely affect U S interests in the region China and Russia have developed cooperation in certain areas such as arms transfers and military technical cooperation and these achievements have successfully reduced political tension However reciprocal threats against each other s territories and China s increasing ambitions and capacity to act as a great military power in the region could eventually become a major source of friction Based on research in both Chinese and Russian this study offers a comprehensive analysis on the development of and limits to this military cooperation *External Research* ,1964
