 Juan C Salgado Brocal Academic and Consultant Council for Military Research and Studies Chile Narc s Serra Barcelona  
 Institute of International Studies Rizal Sukma Centre for Strategic and International Studies Jakarta European Union Law  
 and Defence Integration Martin Trybus, 2005-10-05 This monograph examines the legal dimension of European defence  
 integration from the Second World War to the Treaty Establishing a Constitution for Europe It covers the evolution of  
 European defence and security law in its legal historical and political context The notion of defence law describes the entire  
 field of rules created to regulate the defence of a nation or alliance The analysis leads from the earliest mutual defence  
 treaties to the failure of the European Defence Community and the eventual separation of defence from the mainstream of  
 European integration in the 1950s further to the re vitalisation of a European security policy in the Treaties of Maastricht  
 Amsterdam and Nice In the context of this evolutionary process the book examines the function of Community Law as an  
 instrument of European defence integration Community law affects the economic and social aspects of the defence within the  
 limits of the security exemptions of the EC Treaty It has an impact on the composition of the armed forces the procurement  
 of armaments or the regulation of the defence industries The book concludes with an analysis of the Common Security and  
 Defence Policy of the Constitutional Treaty agreed by the European Council in 2004 The discussion shows that European  
 defence integration is characterised by fragmentation in an area where coherence is particularly important First defence and  
 security are addressed in several organisations the EU the Western European Union NATO the Organisation for Security and  
 Cooperation in Europe and the Organisation for Joint Armaments Cooperation Second defence and security are addressed in  
 both the supranational Community Pillar and the intergovernmental Second Pillar of the Treaty on European Union The new  
 Constitutional Treaty aims to overcome the three Pillar structure of the Union Nevertheless it leaves the intergovernmental  
 character of the security and defence policy intact and introduces flexible frameworks for its mutual defence crisis  
 management and armaments components However the Union needs a coherent defence policy to ensure her security and to  
 speak with one voice on the international scene **Controlling Small Arms** Peter Batchelor, Kai Michael  
 Kenkel, 2013-11-20 This edited volume takes stock of the state of research and policy on the issue of Small Arms and Light  
 Weapons SALW ten years after the UN first agreed to deal with the problem The end of the Cold War originated a series of

 Events in Rwanda Somalia and Bosnia seared into global consciousness the devastating effects of this phenomenon and of the  
 necessity to engage actively in its limitation and prevention This edited volume explores and outlines the research and policy  
 on the SALW issue at this critical juncture In addition to providing a detailed telling of the genesis and evolution of SALW  
 research and advocacy the volume features a series of essays from leading scholars in the field on both advances in research

and action on SALW It reflects on what has been achieved in terms of cumulative advances in data methodology and analysis and looks at the ways in which these developments have helped to inform policy making at national regional and international levels Alongside situating and integrating past and present advances in advocacy and international action Controlling Small Arms also outlines future directions for research and action This book will be of much interest to students of small arms peace and conflict studies peacebuilding security studies and IR

undesired effects on Russia's national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of decoupling from the collective West. This book is relevant to scholars and policymakers who want to understand Russia's approach to arms control as an element of military security.
