Cumulative Book List ,1974 **Avoiding the News** Benjamin Toff,Ruth Palmer,Rasmus Kleis Nielsen,2023-12-26 Winner 2025 Hazel Gaudet Erskine Best Book Award International Journal of Press Politics Winner 2024 Choice Outstanding Academic Title A small but growing number of people in many countries consistently avoid the news They feel they do not have time for it believe it is not worth the effort find it irrelevant or emotionally draining or do not trust the media among other reasons Why and how do people circumvent news Which groups are more and less reluctant to follow the news In what

ways is news avoidance a problem for individuals for the news industry for society and how can it be addressed This groundbreaking book explains why and how so many people consume little or no news despite unprecedented abundance and ease of access Drawing on interviews in Spain the United Kingdom and the United States as well as extensive survey data Avoiding the News examines how people who tune out traditional media get information and explores their folk theories about how news organizations work The authors argue that news avoidance is about not only content but also identity ideologies and infrastructures who people are what they believe and how news does or does not fit into their everyday lives Because news avoidance is most common among disadvantaged groups it threatens to exacerbate existing inequalities by tilting mainstream journalism even further toward privileged audiences Ultimately this book shows persuading news averse audiences of the value of journalism is not simply a matter of adjusting coverage but requires a deeper more empathetic understanding of people's relationships with news across social political and technological boundaries
