the spirits of ancestors Sometimes these systems are condemned in the name of the formal religions but more often the potent dead coexist as a private dimension of everyday religious practice A unique team of anthropologists historians and literary scholars from Europe Australia and North America demonstrate the continuing importance of the potent dead for understanding contemporary Indonesia At the same time they help us understand historic processes of conversion to Islam **Sailing Directions** and Christianity by examining the continuing interactions of the spirit world with formal religion (enroute) for Borneo, Jawa, Sulawesi and Nusa Tenggara United States. Defense Mapping Agency. Hydrographic/Topographic Center, 1979 Religion and Architecture in Premodern Indonesia G. Domenig, 2014-04-03 In his richly illustrated Religion and Architecture in Premodern Indonesia Gaudenz Domenig investigates the nature of Indonesian ethnic religions by focusing on land opening rituals sacred groves and architectural responses to the custom of presenting offerings Since deities and spirits were supposed to taste offerings on the spot it was a task of architecture to attract them and to guide them into houses where offerings were presented Domenig quotes numerous sources to show that certain material elements of the house were viewed as spirit attractors spirit ladders or spirit pathways Various exotic features of Indonesian vernacular architecture thus become understandable as relics from times when architecture was still responding to indigenous religions practised in the archipelago Comprehensive Action Plans of the Sulu-Sulawesi Marine Ecoregion Asian Development Bank, 2011-10-01 The Sulu Sulawesi Marine Ecoregion SSME as the apex of the Coral Triangle is considered the center of the center of marine biodiversity where the highest number of colorful reef and marine fishes various sizes of corals and shells myriad shapes of algae and protective mangrove forests are found The SSME s marine aquarium is not only a delightful lure for tourists but is also the source of food and a natural capital for livelihoods among coastal communities To address threats to SSME s diversity and productivity an ecoregion conservation plan was forged collaboratively by Indonesia Malaysia and the Philippines in 2004 As the management framework to address threats to its diversity and productivity the SSME Ecoregion Conservation Plan has spurred the development of three comprehensive action plans for 2010 2012 These plans are implemented by the subcommittees on Migratory and Threatened Species Marine Protected Areas and Networks and Sustainable Fisheries and guided by the SSME's Tri National Committee This publication includes business plans and cost estimates to implement the three action plans providing useful guide on costs and activities for governments prospective donors and investors valuable information from cost benefit analyses and lessons learned from Languages of South Sulawesi Charles E. Grimes, Barbara D. Grimes, 1987 **Bali Handbook** past conservation efforts with Lombok and the Eastern Isles ,2000 South Sulawesi Helen Reid, Anthony Reid, 1988 **Architecture Journal** Indonesia Gerald H.
