methodologies and controversies within gerontology I find the book a good exponent of the breadth and strength of British gerontology Ageing and Society Most of the chapters of this thought provoking book deal with different aspects of ageing in the normal population but several have implications for care of people with dementia Journal of Dementia Care In recent years gerontology has both diversified and specialised to meet the complex challenge of an ageing society This book aims specifically to reflect these developments and includes expert contributions from the disciplines of geography economics sociology and social policy psychology and medicine Contributions have been selected not only to highlight topics of particular concern but also to illustrate the development and deployment of pragmatic responses The chapters address important issues in lifestyle health adult education ethnicity pensions policy development residential care and professional training Attention also focuses on debate within gerontology particularly in the areas of community care dementing illness and health economics

Mother Time Margaret Urban Walker, 2000-03-09 This collection of original essays opens up a novel area of inquiry the distinctively ethical dimension of women s experiences of aging Fifteen distinguished contributors here explore assumptions experiences practices and public policies that affect women s well being and dignity in later life The book brings to the study of women s aging a reflective dimension missing from the empirical work that has predominated to date Ethical studies of aging have so far failed to emphasize gender And feminist ethics has neglected older women even when emphasizing other dimensions of difference Finally work on aging in all fields has focused on the elderly while this volume sees aging as an extended process of negotiating personal and social change

Ageing and Popular Culture Andrew Blaikie, 1999-03-04 As the grey market perpetuates the quest for eternal youth the biological realities of deep old age are increasingly denied Ageing and Popular Culture traces the historical emergence of stereotypes of retirement and documents their recent demise arguing that although modernisation marginalisation and medicalisation created rigid age classifications the rise of consumer culture has coincided with a postmodern broadening of options for those in the Third Age With an adroit use of photographs and other visual sources Andrew Blaikie demonstrates that an expanded leisure phase is breaking down barriers between mid and later life At the same time positive ageing also creates new imperatives and new norms with attendant forms of deviance While babyboomers may anticipate a fulfilling retirement none relish decline Has deep old age replaced death as the taboo subject of the late twentieth century If so what might be the consequences

Women, Oppression and Social Work Lesley Day, Mary Langan, 2002-09-11 First published in 1992 Routledge is an imprint of Taylor Francis an informa company

[An Introduction to Gerontology](#) Ian Stuart-Hamilton, 2011-03-31 With the world s population getting increasingly older there has

never been a more pressing need for the study of old age and ageing An Introduction to Gerontology provides a wide ranging introduction to this important topic By assuming no prior expert knowledge and avoiding jargon this book will guide students through all the main subjects in gerontology covering both traditional areas such as biological and social ageing and more contemporary areas such as technology the arts and sexuality An Introduction to Gerontology is written by a team of international authors with multidisciplinary backgrounds who draw evidence from a variety of different perspectives and traditions *Lifetimes of Commitment* Molly Andrews,1991-05-31 Explores the ways in which political belief is developed and sustained throughout the course of a lifetime Through interviews it focuses on the lives of 15 British men and women aged between 70 and 90 who have dedicated half a century or longer to working for social change and justice

Transnational Migration and Home in Older Age Katie Walsh,Lena Näre,2016-03-10 This book examines the transformations in home lives arising in later life and resulting from global migrations It provides insight into the ways in which contemporary demographic processes of aging and migration shape the meaning experience and making of home for those in older age Chapters explore how home is negotiated in relation to possibilities for return to the homeland family networks aging and health care cultures and belonging The book deliberately crosses emerging sub fields in transnationalism studies by offering case studies on aging labour migrants retirement migrants and return migrants as well as older people affected by the movement of others including family members and migrant care workers The diversity of people s experiences of home in later life is fully explored and the impact of social class gender and nationality as well as the corporeal dimensions of older age are all in evidence *Oldenland* Roger Clough,2025-04-24 In front of me is an adventure with old age as my companion my shadow and confederate maybe my friend Old age is a country and we need to learn to walk through it And that s just what Roger Clough former Professor of Social Care lifelong hill walker and current resident of Oldenland spends his time doing Where he used to study the terrain of ageing like a scientist now he understands it as a farmer might walking its contours every day from his retirement village in the Peak District while still negotiating the physical peaks and troughs of the area Whilst there are a lot of books that cover the topic of how to have a good death there is little that offers us advice on the time period that comes before that How do we learn to actually be old How do we spend our later years in a meaningful way that makes sense of who we ve been and who we are now Not in blithely positive denial in the face of our physical and cognitive decline or overtaken with regret of a life that s running down the clock but empowered to not lose who we are to say I am still me And if we have not yet arrived at its borders how can we better understand those who live there and better prepare ourselves for a future when we will become citizens too Written over 25 years and innumerable journeys Oldenland is a unique and moving companion to the experiences of old age and how to make it count **Critical Issues for Future Social Work Practice with Aging Persons** Sheila M. Neysmith,1999 A massive restructuring of health care in virtually all the wealthy nations of the West has offloaded services and costs from

governmental responsibility into home care services and onto families a burden borne primarily by women This restructuring has profoundly altered not only the practice of social work but also its representation in language and theory As this volume demonstrates many of the consequences social workers must face are made more difficult by the dominance of a market discourse that excludes a social justice framework The authors aim not to prescribe specific guidelines for practice but to challenge current arrangements and explanations in order to open the discourse and generate alternatives so that people receiving care might have fuller and more satisfying lives Written by social work theorists and specialists from the U S Canada and New Zealand the chapters focus on topics of long term care as they affect vulnerable groups women in particular as they age Subjects include constructing community support aging and caregiving in culturally diverse families changing demographics of widowhood and the new millennium s challenges for social work on aging and disability
