Economic Joint Committee, 1973 *Soviet Economic Prospects for the Seventies*, 1973 *Economic Analysis of the Soviet-Type System* Judith Thornton, 1976-08-05 Economics textbook presenting a formal description and economic analysis of the centrally planned economy of the type of the USSR economic system provides a representative survey of the main applications and techniques of national planning pertinent to the centralization type of planning and economic modelling etc Flow charts graphs references and statistical tables

Planning Problems in the USSR Michael Ellman, 1973-09-27 *Planning in the Soviet Union* Judith Pallot, Denis J. B. Shaw, 2021-12-24 Originally published in 1981 and based on the authors own research this book provides a comprehensive review of planning in the Soviet Union up until the early 1980s for both geographers and Soviet specialists Planning was particularly important in the Soviet Union since not only most spatial change but all economic planning was the product of a systematic socio political ideology Planning was therefore the key to understanding the Soviet economy society and spatial change When it was first published this was the first study in which the focus had been directed specifically at spatial planning in the Soviet Union in any systematic way *Communist Planning versus Rationality* János Mátyás Kovács, 2022-04-14 This volume examines concepts of central planning a cornerstone of political economy in Soviet type societies It revolves around the theory of optimal planning which promised a profound modernization of Stalinist style verbal planning Encouraged by cybernetic dreams in the 1950s and supporting the strategic goals of communist leaders in the Cold War optimal planners offered the ruling elites a panacea for the recurrent crises of the planned economy Simultaneously their planning projects conveyed the pride of rational management and scientific superiority over the West The authors trace the rise and fall of the research program in the communist era in eight countries of Eastern Europe including the Soviet Union and China describing why the mission of optimization was doomed to fail and why the failure was nevertheless very slow The theorists of optimal planning contributed to the rehabilitation of mathematical culture in economic research in the communist countries and thus to a neoclassical turn in economics all over the ex communist world However because they have not rejected optimal planning as computopia there is a large space left behind for future generations to experiment with Big Optimal Plans anew based at this time on artificial intelligence and machine learning *Hearings, Reports and Prints of the Joint Economic Committee* United States. Congress. Joint Economic Committee, 1974 *The Socialist Calculation Debate After the Upheavals in Eastern Europe* Pascal Bridel, 1993
