Soviet Military Power 1987:

Soviet Military Power, 1987, 1987 Soviet Military Power 1987 reviews new development in the USSR's armed forces over the past year and places these in the context of current doctrine and strategy. These developments again underscore that the USSR is building new generations of offensive strategic and theater nuclear forces as well as conventional land sea and air forces and strategic defense forces going far beyond legitimate requirements for defense. **Soviet Military Power**, 1989

Soviet Military Power, 1987 **Air University Library Index to Military Periodicals**, 1987 **Soviet Military Operational Art** Colonel David M. Glantz, 2012-11-12 David Glantz examines the Soviet study of war, the re-emergence of the operation level and its connection with deep battle, the evolution of the Soviet theory of operations in depth before 1941 and its refinement and application in the European theatre and the Far East between 1941 and 1945. The Army Command Post and Defense Reshaping 1987-1997 Mark D. Sherry, 2010-11-29 The U.S. Army underwent a decade of significant transformation between 1987 and 1997 that affected strategy, force requirements, structure and basing requirements. The end of the Cold War provided the initial impetus for defense reshaping and drove the pace and depth of change. Reductions in forces and installations and deferred procurement of the next generation of military equipment overlapped with efforts to adapt the Army to a new global security environment. The Army Command Post and Defense Reshaping 1987-1997 Mark D. Sherry, 2008 **Naval Policy and Strategy in the Mediterranean** John B. Hattendorf, 2013-11-05 Maritime strategy and naval power in the Mediterranean touches on migration, the environment, technology, economic power, international politics and law as well as calculations of naval strength and diplomatic manoeuvre. These broad and fundamental themes are explored in this volume. **U.S. Government Books**, 1985 Inside the Cold War From Marx to Reagan Sven F. Kraemer, 2015-09-16 A long time U.S. policy insider's scholarly and encyclopedic history with unprecedented analysis of the official documents of the Cold War explores its Marxist Leninist totalitarian roots, faltering pre-Reagan U.S. strategies of Containment, MAD and Détente and the Reagan Revolution. This book details Reagan's integrated new strategies in defense, arms control, diplomacy, information and intelligence and support for the faithful and forces of freedom that collapsed the Soviet ideology and empire.
