Soviet Military Strategy 3rd Ed:

Soviet Military Strategy in Europe Joseph D. Douglass, 2013-10-22 Soviet Military Strategy in Europe focuses on the development form and content implications for international relations and goal of Soviet military plan in Europe The book first discusses the foundation of Soviet military thought and revolution in Soviet military affairs including basic concepts of the Marxist Leninist ideology Soviet study of military affairs nuclear revolution and scientific and technical revolution The publication also concentrates on Soviet study of laws and principles of military art and forces and primary operational concepts Topics include laws of the first order naval and air operations nuclear strike and conventional war considerations The manuscript ponders on command and control as well as combat modeling survivability coordination centralization and attack of NATO command and control The book also reviews the issues of Soviet military strategy toward Europe and special Soviet problems Topics include role of nuclear weapons chemical warfare options escalation to intercontinental war NATO nuclear threat nuclear weapon stockpile and superiority and war initiation The publication is a dependable reference for readers interested in the Soviet military scheme in Europe *Soviet Military Doctrine* Harriet Fast Scott, William F. Scott, 2019-06-21 The purpose of this book is to document from basic Soviet sources the development of Soviet military doctrine and its impact upon the Soviet Armed Forces Soviet military doctrine is defined as the military policy of the Communist Party In one way or another this policy affects the lives of all of us as a possible threat to free institutions and political processes as well as to our economic life and well being Generally we approach Soviet military policy in terms of military balances and weapons comparisons in the number of men under arms the speed of aircraft of the Soviet bloc versus that of NATO aircraft the number of ballistic missiles and their throw weights Studying such balances is of critical importance in defining to some degree existing forces But it is only through a deep and thorough study of the military policy of the Communist Party which translates directly into military doctrine that we can obtain the background that might aid in negotiating with the Soviets on arms control matters or in making decisions that will enable those nations outside of the Soviet bloc to deter future Kremlin military moves *The Uses and Limits of Intelligence* Walter Laqueur, 2017-09-29 This is a major survey and assessment of U S intelligence activities over the last forty five years It offers a systematic and authoritative evaluation of American intelligence gathering machinery how it has been used misused and on occasion ignored The book has been hailed as a splendid work reflective and penetrating by James R Schlesinger while Zbigniew Brzezinski describes Laqueur as a man who understands the relationships between history and the world of secret services Henry S Rowen noted that Laqueur brings a rare degree of analytical power to this important subject **USSR, Analytical Survey of Literature** United States. Department of the Army, 1976 **Strategic Review**, 1974 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States *Bulletin of the Atomic Scientists*, 1978-03-31 *Transformation in Russian and Soviet Military History* Carl W.

Reddel,1990 **Military Effectiveness: Volume 3, The Second World War** Allan R. Millett,Williamson

Murray,2010-08-09 This three volume study examines the questions raised by the performance of the military institutions of France Germany Russia the United States Great Britain Japan and Italy in the period from 1914 to 1945 Leading military historians deal with the different national approaches to war and military power at the tactical operational strategic and political levels They form the basis for a fundamental re examination of how military organizations have performed in the first half of the twentieth century Volume 3 covers World War II Volumes 1 and 2 address address World War I and the interwar period respectively Now in a new edition with a new introduction by the editors these classic volumes will remain invaluable for military historians and social scientists in their examination of national security and military issues They will also be essential reading for future military leaders at Staff and War Colleges *Proceedings of the National Security Affairs Conference* ,1976 US Presidents and the Militarization of Space, 1946-1967 Sean N. Kalic,2012-04-10 In the clash of ideologies represented by the Cold War even the heavens were not immune to militarization Satellites and space programs became critical elements among the national security objectives of both the United States and the Soviet Union According to US Presidents and the Militarization of Space 1946 1967 three American presidents in succession shared a fundamental objective of preserving space as a weapons free frontier for the benefit of all humanity Between 1953 and 1967 Presidents Eisenhower Kennedy and Johnson all saw nonaggressive military satellite development as well as the civilian space program as means to favorably shape the international community s opinion of the scientific technological and military capabilities of the United States Sean N Kalic s reinterpretation of the development of US space policy based on documents declassified in the past decade demonstrates that a single vision for the appropriate uses of space characterized American strategies across parties and administrations during this period Significantly Kalic s findings contradict the popular opinion that the United States sought to weaponize space and calls into question the traditional interpretation of the space race as a simple action reaction paradigm Indeed beyond serving as a symbol and ambassador of US technological capability its satellite program provided the United States with advanced nonaggressive military intelligence gathering platforms that proved critical in assessing the strategic nuclear balance between the United States and the Soviet Union It also aided the three administrations in countering the Soviet Union s increasing international prestige after its series of space firsts beginning with the launch of Sputnik in 1957
