Soviet State And Society Between Revolutions 1918 1929:

Soviet State and Society Between Revolutions, 1918-1929 Lewis H. Siegelbaum, 1992-08-20 The evolution of the ruling Communist Party and its New Economic Policy is explored in the first book to analyze the relationship between the Soviet state and society from 1917 through the early 1930s through the changing fortunes of its peoples Soviet State and Society between Revolutions, 1918-1929 Lewis H. Siegelbaum, 1992-08-20 This is the first book to analyze the relationship between the Soviet state and society from the October Revolution of 1917 to the revolution under Stalin of the late 1920s and early 1930s Professor Lewis Siegelbaum explores the evolution of the ruling Communist Party and its New Economic Policy and the changing fortunes of industrial workers peasants and the scientific and cultural intelligentsia He demonstrates how these different actors sought to appropriate the promise of the 1917 Revolution for their own purposes highlights the compromises they made and explains why in the late 1920s these compromises started to break down The Body Soviet Tricia Starks, 2009-01-06 In 1918 the People's Commissariat of Public Health began a quest to protect the health of all Soviet citizens but health became more than a political platform or a tactical decision The Soviets defined and categorized the world by interpreting political orthodoxy and citizenship in terms of hygiene The assumed political social and cultural benefits of a regulated healthy lifestyle informed the construction of Soviet institutions and identity Cleanliness developed into a political statement that extended from domestic maintenance to leisure choices and revealed gender ethnic and class prejudices Dirt denoted the past and poor politics health and cleanliness signified mental acuity political orthodoxy and modernity Health though essential to the revolutionary vision and crucial to Soviet plans for utopia has been neglected by traditional histories caught up in Cold War debates The Body Soviet recovers this significant aspect of Soviet thought by providing a cross disciplinary comparative history of Soviet health programs that draws upon rich sources of health care propaganda including posters plays museum displays films and mock trials The analysis of propaganda makes The Body Soviet more than an institutional history it is also an insightful critique of the ideologies of the body fabricated by health organizations A masterpiece that will thoroughly fascinate and delight readers Starks's understanding of propaganda and hygiene in the early Soviet state is second to none She tells the stories of Soviet efforts in this field with tremendous insight and ingenuity providing a rich picture of Soviet life as it was actually lived Elizabeth Wood author of From Baba to Comrade Gender and Politics in Revolutionary Russia **Time and Revolution** Stephen E. Hanson, 2000-11-09 Stephen Hanson traces the influence of the Marxist conception of time in Soviet politics from Lenin to Gorbachev He argues that the history of Marxism and Leninism reveals an unsuccessful revolutionary effort to reorder the human relationship with time and that this reorganization had a direct impact on the design of the central political socioeconomic and cultural institutions of the Soviet Union from 1917 to 1991 According to Hanson westerners tend to envision time as both rational and inexorable In a system in which time is money the clock dominates workers Marx however believed that communist workers would be freed of the

artificial distinction between leisure time and work time As a result they would be able to surpass capitalist production levels and ultimately control time itself Hanson reveals the distinctive imprint of this philosophy on the formation and development of Soviet institutions arguing that the breakdown of Gorbachev's perestroika and the resulting collapse of the Soviet Union demonstrate the failure of the idea *Modernism and Public Reform in Late Imperial Russia* I. Gerasimov, 2009-08-12 This book is a comprehensive reconstruction of the successful attempt by rural professionals in late imperial Russia to engage peasants in a common public sphere Covers a range of aspects from personal income and the dynamics of the job market to ideological conflicts and psychological transformation Based on hundreds of individual life stories *Merchants and Markets in Revolutionary Russia, 1917-30* Arup Banerji, 1997-02-12 This book explores the history of private internal trade in the USSR during the NEP of the 1920s Private traders operated in a politically hostile but economically promising environment Their contribution to post war reconstruction was a crucial one An exhaustive portrayal of the markets and dimensions of private trade is contrasted with the felt anxieties of Bolsheviks concerning traders destabilising intentions and abilities Retrospectively many of these apprehensions were misplaced **Stalin** Stephen Kotkin, 2015-10-13 In his biography of Stalin Kotkin rejects the inherited wisdom about Stalin's psychological makeup showing us instead how Stalin's near paranoia was fundamentally political and closely tracks the Bolshevik revolution's structural paranoia the predicament of a Communist regime in an overwhelmingly capitalist world surrounded and penetrated by enemies At the same time Kotkin posits the impossibility of understanding Stalin's momentous decisions outside of the context of the history of imperial Russia

Socialism in Russia J. Gooding, 2001-12-03 This book asks three fundamental questions about the socialist experiment in twentieth century Russia How did Marxist ideas come to be implemented in Russia a country entirely unsuited to them Why did the experiment lead to such suffering and upheaval and prove so fruitless And why did the attempt to return to a proper Marxism Leninism bring about the rapid collapse of the experiment In its answers this book pays special attention to the shadow cast by Lenin throughout the entire Soviet era *Stalin's Railroad* Matthew J. Payne, 2010-11-23 The Turkestan Siberian Railroad or Turksib was one of the great construction projects of the Soviet Union's First Five Year Plan As the major icon to ending the economic backwardness of the USSR's minority republics it stood apart from similar efforts as one of the most potent metaphors for the creation of a unified socialist nation Built between December 1926 and January 1931 by nearly 50 000 workers and at a cost of more 161 million rubles Turksib embodied the Bolsheviks commitment to end ethnic inequality and promote cultural revolution in one the far flung corners of the old Tsarist Empire Kazakhstan Trumpeted as the forge of the Kazakh proletariat the railroad was to create a native working class bringing not only trains to the steppes but also the Revolution In the first in depth study of this grand project Matthew Payne explores the transformation of its builders in Turksib's crucible of class war race riots state purges and the brutal struggle of everyday life In the battle for the souls of the nation's engineers as well as the racial and ethnic conflicts that swirled far from Moscow around Stalin's vast

campaign of industrialization he finds a microcosm of the early Soviet Union *Speaking Soviet with an Accent* Ali F. Igmen, 2012-07-31 *Speaking Soviet with an Accent* presents the first English language study of Soviet culture clubs in Kyrgyzstan These clubs profoundly influenced the future of Kyrgyz cultural identity and fostered the work of many artists such as famed novelist Chingiz Aitmatov Based on extensive oral history and archival research Ali Igmen follows the rise of culture clubs beginning in the 1920s when they were established to inculcate Soviet ideology and create a sedentary lifestyle among the historically nomadic Kyrgyz people These Red clubs are fondly remembered by locals as one of the few places where lively activities and socialization with other members of their ail village or tribal unit could be found Through lectures readings books plays concerts operas visual arts and cultural Olympiads locals were exposed to Soviet notions of modernization But these programs also encouraged the creation of a newfound Kyrgyzness that preserved aspects of local traditions and celebrated the achievements of Kyrgyz citizens in the building of a new state These ideals proved appealing to many Kyrgyz who for centuries had seen riches and power in the hands of a few tribal chieftains and Russian imperialists This book offers new insights into the formation of modern cultural identity in Central Asia Here like their imperial predecessors the Soviets sought to extend their physical borders and political influence But Igmen also reveals the remarkable agency of the Kyrgyz people who employed available resources to meld their own heritage with Soviet and Russian ideologies and form artistic expressions that continue to influence Kyrgyzstan today
