Słownik wyrazów obcych i zwrotów obcojęzycznych z almanachem Władysław Kopaliński, 2000 **Słownik wyrazów obcych i zwrotów obcojęzycznych z almanachem** Władysław Kopaliński, 1998 Słownik wyrazów obcych i zwrotów obcojęzycznych z almanachem Władysław Kopaliński, 2007 **Słownik wyrazów obcych i zwrotów obcojęzycznych z almanachem** Władysław Kopaliński, 2007 The Concept of Dilemma in Legal and Judicial Ethics Przemysław Kaczmarek, Krzysztof J. Kaleta, Paweł Łabieniec, Marcin Pieniążek, Paweł Skuczyński, Sebastian Sykuna, 2018-10-12 Judges and lawyers have to shape their moral competences in order to maintain their professional ethics at a high standard if they want to effectively meet the challenges that modern society will throw at them This requirement is due to the growing expectation that they will be socially and morally responsible for the law Thus the need to place ethics at the heart of legal education and to make ethical reflection pervasive in academic courses becomes more obvious every day Using the concept and examples of moral dilemmas is a way of facilitating this task The main purpose of this book is to analyse the concept of moral dilemma in context of judicial and legal ethics and to provide material for legal education The structure of this book is designed with this double aim in mind The theoretical part presents the concept of dilemmas on grounds of metaethics and the perspectives for its application in a professional legal context The former encompasses situations of conflict of duties or obligations in which the choice of one conduct necessarily prevents a different conduct and therefore leads to an unacceptable outcome Hence the situation of dilemma always involves an issue of moral responsibility and the problem of dirty hands How such situations are present in legal practice and how to deal with them is the main concern of this part The considerations are divided into three levels of reflection deontological axiological and moral responsibility The practical part of the book contains an overview of 150 dilemmas that can be useful in legal ethics or other legal courses The dilemmas are divided into chapters covering the following branches of law criminal law civil and commercial law family and custody law labour and social security law and constitutional law Every dilemma presents a description of the facts a reconstruction of dilemma its standard solution and some critical remarks from a meta ethical perspective The dilemmas cover situations regularly met in everyday practice as well as examples of more exceptional challenges in connection with constitutional crises that have occurred in Poland in recent years Moving Texts, Migrating People and Minority Languages Michał Borodo, Juliane House, Wojciech Wachowski, 2017-04-19 In an age of migration in a world deeply divided through cultural differences and in the context of ongoing efforts to preserve national and regional traditions and identities the issues of language and translation are becoming absolutely vital At the heart of these complex intercultural interactions are various types of agents intermediaries and mediators including translators writers artists policy makers and publishers involved in the preservation or rejuvenation of literary and cultural repertoires languages and identities The major themes of this book include language and translation in the context of migration and diasporas migrant

experiences and identities the translation from and into minority and lesser used languages but also in a broader sense the international circulation of texts concepts and people The volume offers a valuable resource for researchers in the field of translation studies lecturers teaching translation at the university level and postgraduate students in translation studies Further it will benefit researchers in migration studies linguistics literary and cultural studies who are interested in learning how translation studies relates to other disciplines

Individual Learner Differences in SLA Janusz Arabski, Adam Wojtaszek, 2011 Individual Learner Differences in SLA addresses the apparently insoluble conflict between the unquestionably individual character of the process of second language acquisition foreign language learning and the institutionalised often inflexible character of formal instruction in which it takes place How then is success in SLA so prevalent

Management, Conflict Resolution and Strategy Magdalena Kraczla, Anna Wziątek-Staśko, 2024-08-02 Managers are key people in building the success of any organization Business results depend on their efficiency in the implementation of the power entrusted to them This efficiency on the other hand largely depends on psychosocial competences and personality predispositions One of the main factors affecting destructively on managers is stress destroying the level of their motivation to work the level of commitment and ultimately resulting in premature professional burnout and a significant reduction in the level of efficiency Ultimately instead of efficient and motivated specialists companies are struggling with employees suffering from depression Exploration of the issue of identifying the sources of stress draws attention to conflict as one of the main research categories that are closely related to the category of stress It is worth emphasizing that this relationship is two way conflict determines the level of stress stress may determine the scale of conflict situations This recommended monograph provides the latest knowledge on what contemporary managers use conflict resolution styles and what strategies they choose to deal with in stressful situations A particular advantage of the study is the presentation of the links between both research categories which are so paramount
