(Regulation of the insurance and liability related issues/ patent law and other international property issues/ export control regulation/ financial security/ transport law/ dispute settlement)

Aspects of harmonisation

- insurance related issues: **compulsory third party liability insurance** should be required for every space activity; a minimum coverage should be determined, (maybe as well a maximum coverage)
- insurance related issues: if a **maximum insurance** cover was determined, this should be in **line with the limitation of Indemnification** of the liable Launching State
- insurance related issues: requirements of the **cover note** should be **adequate** in order to safeguard claims of third parties
