Worlds Apart? A Postcolonial Reading of post-1945 East-Central European Culture Cristina Sandru, 2013-01-16 This study explores the relation of the Eastern European problematic to postcolonial critical practice interrogating the extent to which postcolonialism can help illuminate instances of imperial domination in non Third World contexts It argues that colonisation is to be understood principally as a condition of ideological domination that has engendered similar forms of literary and cultural resistance consequently it offers a comparative framework which enables a reading in differential contexts of texts that ostensibly have little in common but which on close examination reveal a shared imaginative space rhetoric and narrative agency The book consists of two interrelated parts Part one is a critical discussion of the ideologies cultural imaginaries and representational practices articulated in a diverse range of representative postcolonial and post 1945 East Central European texts these are shown to share despite dissimilar conditions of production uncannily related narrative modes and thematic emphases Part two is a comparative literature case study which discusses two authors whose work is both highly representative of the cultural formations discussed in the first part Milan Kundera and Salman Rushdie and at the same time highly controversial The chapters dedicated to Kundera's and Rushdie's work examine the cultural geography of their novels particularly in the writers use of memory and story telling to reconfigure history and personal identity in conditions of literal and metaphorical displacement While their novels thrive on ironic subversion and ambiguity they simultaneously gesture towards a redemptive space of the imagination transcending the constraints of both locality and history

Cheating Mia Consalvo, 2009-08-21 A cultural history of digital gameplay that investigates a wide range of player behavior including cheating and its relationship to the game industry The widely varying experiences of players of digital games challenge the notions that there is only one correct way to play a game Some players routinely use cheat codes consult strategy guides or buy and sell in game accounts while others consider any or all of these practices off limits Meanwhile the game industry works to constrain certain readings or activities and promote certain ways of playing In *Cheating* Mia Consalvo investigates how players choose to play games and what happens when they can't always play the way they'd like She explores a broad range of player behavior including cheating alone and in groups examines the varying ways that players and industry define cheating describes how the game industry itself has helped systematize cheating and studies online cheating in context in an online ethnography of *Final Fantasy XI* She develops the concept of gaming capital as a key way to understand individuals interaction with games information about games the game industry and other players Consalvo provides a cultural history of cheating in videogames looking at how the packaging and selling of such cheat enablers as cheat books *GameSharks* and mod chips created a cheat industry She investigates how players themselves define cheating and how their playing choices can be understood with particular attention to online cheating Finally she examines the growth of the peripheral game industries that produce information about games rather than actual games Digital games

are spaces for play and experimentation the way we use and think about digital games Consalvo argues is crucially important and reflects ethical choices in gameplay and elsewhere , [The Messianic Commons](#) David Benjamin Blower,2024-11-29 Messianic stories run through the Abrahamic faiths and many others besides Messianism is the religion of the oppressed the faith of those whose struggle compels them toward alternative futures Messianism has also become a watchword for visionaries of radical politics far beyond confessional religious spaces These sketches explore how we might encounter ourselves differently in the dim light of that illusive figure how we might reimagine ourselves as ecological creatures economic agents and as beings who dance differently with power and life amidst the many threads of messianic folklore
