Space Mall:

Space Mall Jon Buller, Susan Schade, 1997 Ten year old Ron is at the mall when it is hijacked and flown into space by small but horrible extraterrestrials

Shopping Malls and Other Sacred Spaces Jon Pahl, 2008-12-29 Christian historian Sidney Mead has observed In America space has played the part that time has played in older cultures of the world In Shopping Malls and Other Sacred Spaces Jon Pahl examines this provocative statement in conversation with what he calls the spatial character of American theology He argues that places are always imaginatively constructed by the human beings who inhabit them Sometimes this spatial theology works to our benefit other times it poses spiritual risks What happens when our banal clothing of the sacred violates our genuine need for comfort and intimacy Or when we remember that the fleeting pleasures of a shopping trip or a Disneyland escape are designed to fill someone else's pocket rather than the spiritual emptiness in our own hearts Pahl develops several ways to clothe the divine from within the Christian tradition He introduces a theology of place that reveals aspects of God's character through biblical metaphors drawn from physical spaces such as the true vine the rock and the living water Accessible and thought provoking this enlightening book provides a better grasp of our particularly American way of lending religious significance to spaces of all kinds

Shopping Malls and Public Space in Modern China Nicholas Jewell, 2016-03-03 China's rise as an economic superpower has been inescapable Statistical hyperbole has been accompanied by a plethora of highly publicized architectural forms that brand the regeneration of its increasingly globalized urban centres Despite the sizeable body of literature that has accompanied China's modernization the essence and trajectory of its contemporary cityscape remains difficult to grasp This volume addresses a less explored aspect of China's urban rejuvenation the prominence of the shopping mall as a keystone of its public spaces Here the presence of the built form most representative of Western capitalism's excess is one that makes explicit the tensions between China's Communist state and its ascent within the free market This book examines how these interrelationships are manifested in the culturally hybrid built form of the shopping mall and its role in contesting the public space of the modern Chinese city By viewing these interrelationships as collisions of global and local narratives a more nuanced understanding of the shopping mall typology is explored Much architectural criticism has failed to address the levels of meaning implicit within the shopping mall yet it is a building type whose public popularity has guaranteed its endurance Consequently if architecture is to remain a relevant social art a more holistic understanding of this phenomenon will be indispensable to the process of adapting to globalizing forces This examination of Chinese shopping malls offers a timely and relevant case study of what is happening in all our cities today

America at the Mall Lisa Scharoun, 2014-01-10 Since the construction of the first fully enclosed shopping center in 1952 the shopping mall has evolved into the heart of many suburban areas across the United States More than simply a place to purchase goods this veritable temple of consumerism has become a primary place for community and social interaction and an essential element in many citizens day to day lives

This study explores the spiritual emotional and physical effects of the enclosed shopping mall on the public chronicling the growth of the mall its role in shaping urban and suburban life its positive and negative impacts on society and the environment and its future viability As this work shows the mall remains rich in symbolic influence and in many ways mirrors the American condition
