Culling telling details from a host of long overlooked sources, Jacob Smith's account of sensational high risk public performance from the Victorian age to the 1930s unearths and illuminates the interwoven histories of public spectacle, masculinity, the motion picture industry, new forms of celebrity, and the expanding American metropolis. Greg Waller, Department of Communication and Culture, Indiana University. *The Thrill Makers* is an historical tour de force that illuminates the origins of risk taking performance in American entertainment and shows how its practitioners were gradually marginalized as invisible stunt doubles during the rise of the motion picture industry. Smith's analysis of the lion tamer, the human fly, and the airplane wing walker, as well as the many others who thrilled audiences before and during the advent of cinema, inspires us to reconsider the nature of media spectacle, masculinity, performance, celebrity, and labor at the turn of the last century. Impeccably researched, this book is a captivating read that re frames the emergence of cinema in the context of its relationship to other forms of modern entertainment. Barbara Klinger, author of *Beyond the Multiplex: Cinema, New Technologies, and the Home*. ***¡Intrépidos! Dobles de riesgo*** Jessica Cohn, 2013-07-30 When stunt performers go to work, they make dangerous feats look fun and easy, but there is a lot of risk behind this profession. Explore what stunt people do to prepare and keep themselves safe. Readers will be introduced to a brief history of stunt performance, as well as the latest tips and tricks, including stunt driving, professional fighting, and even digital effects such as computer generated imagery. With thrilling language and stunning images in conjunction with informational text, a useful glossary, and an interview with a real life stunt man, this text will surely fascinate and stimulate readers from cover to cover. This book has been translated into Spanish. **Visual Storytelling in the 21st Century** David Callahan, 2024-10-14 This volume will explore varying contemporary strategies and examples of visual storytelling across several contemporary spheres, from street art to video games, from media for children to media for adults, from images in movement to static images. It reads these storytelling venues in terms of the ethical itineraries that we live by, or would like to live by, or wish the world lived by. In this sense, it relates to the fact that the term narrative has become a ubiquitous shorthand for discursive dominance. Observers of widely varying aspects of social life talk, for example, of changing the narrative, claiming the narrative, overhauling the narrative, or owning the narrative. While these general contexts are well known, there remains a need to continually interrogate new examples of storytelling forms, new cases of the uses of stories in differing formats, and new stories in general. This perpetual need is what this volume aims to respond to by way of its mixture of contemporary storytelling locations and exemplars. **Experts in Action** Lauren Steimer, 2021-01-11 Action movie stars ranging from Jackie Chan to lesser known stunt women and men like Zo Bell and Chad Stahelski, stun their audiences with virtuosic martial arts displays, physical prowess,

and complex fight sequences. Their performance styles originate from action movies that emerged in the industrial environment of 1980s Hong Kong. In *Experts in Action*, Lauren Steimer examines how Hong Kong influenced cinema aesthetics and stunt techniques have been taken up, imitated and reinvented in other locations and production contexts in Hollywood, New Zealand and Thailand. Foregrounding the transnational circulation of Hong Kong influenced films, television shows, stars, choreographers and stunt workers, she shows how stunt workers like Chan Bell and others combine techniques from martial arts, dance, Peking opera and the history of movie and television stunting practices to create embodied performances that are both spectacular and sometimes rendered invisible. By describing the training skills and labor involved in stunt work as well as the location-dependent material conditions and regulations that impact it, Steimer illuminates the expertise of the workers whose labor is indispensable to some of the world's most popular movies.
